

## Itinerary planner instructions

1. <http://isuog2010.abstractcentral.com/planner.jsp>
2. Click on 'Open / Create Itinerary'.
3. Enter your itinerary name in the 'New Itinerary Name' box and your email address (optional).
4. Click on 'Create Itinerary', which directs you to a page where you can browse the program of events for the entire Congress. You can browse both by day and session type.
5. To add an event or presentation to your itinerary which you would like to attend, tick the box on the right hand side of the screen (please note that in some cases you will need to click on the underlined session title to access the list of presentations within it).
6. If you wish, click on the 'Search' link on the left hand tool bar to access the presentation/event search functionality. This allows you to locate specific events or presentations you might be aware of.
7. Make sure you click 'Save' once you have completed each page before moving on otherwise you might need to re-add items you have added to your itinerary.
8. At any point or when you have finished, you can view your itinerary by clicking on 'Itinerary' on the tool bar. Itineraries can be downloaded as a PDF document, both in a summary format (left hand option) and a more detailed version including relevant abstracts (right hand option).
9. As long as you have given a name to your itinerary it will be saved. You can access it at any time and make changes as necessary. To do this return to the main link <http://isuog2010.abstractcentral.com/planner.jsp> and click on 'Open / Create Itinerary', enter your itinerary name in the 'Open an existing Itinerary' box.
