

**ISUOG**

International Society of Ultrasound in Obstetrics and Gynecology

## Seasons Greetings from ISUOG!

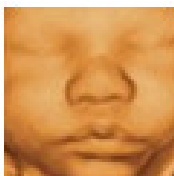

ISUOG have decided that rather than post Christmas cards this year, we're sending a festive e-newsletter and donating the cost of cards to a range of charities via [www.goodgifts.org](http://www.goodgifts.org) !

We also hope that if you have not done so already, you will take time to [renew](#) your ISUOG membership online before the new year, or for those of you who are not yet members, please [join online](#) now to receive full member benefits. We also need to hear your feedback about your membership so we can improve our member services. Please complete this short [survey](#) and you will be entered into a prize draw!

Season's Greetings from ISUOG

### Benefits for ISUOG Members

**There are many reasons to join ISUOG or renew your membership!**

- \*A one year subscription to *Ultrasound in Obstetrics and Gynecology*, plus free online access via our website;
- \*member only access to full web content, including educational tools, lectures and full biometric calculators;
- \*reduced delegate fees to the World Congress and ISUOG Educational Courses and much more...

[Renew or join online now...](#)

### Call for Papers!

**Registration and abstract submission for our 19th World Congress in Hamburg will open on 1st January - prepare your abstracts now!**

The program will be built around your scientific contributions, so we look forward to receiving your new research. Special registration fees apply to abstract submitters!

[Read more about the next World Congress...](#)

## ISUOG Courses

### ISUOG Education - Next Course in London Now Fully Booked!

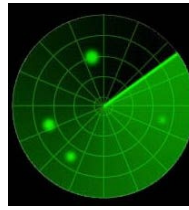

Unfortunately registration for our 2nd Congenital Anomalies & Fetal Echocardiography course is now closed.

Our next course covers two important topics in one (1. Obstetric Doppler 2. Prediction of pre-term labour). This course is planned for 20 - 22 November 2009.

Register your interest for this course by emailing [congress@isuog.org](mailto:congress@isuog.org).

[View course details here](#)

## Journal Watch

### ISUOG's new Journal Watch is launched!

Please [login](#) and view now on our Membership pages!

We're introducing a new ISUOG membership service!...a compilation of articles from other journals that may be of interest to you as regular readers of Ultrasound in Obstetrics and Gynecology. This first edition of Journal Watch covers January-June 2008. We will update Journal Watch for July-December 2008 shortly and notify you electronically as soon as it is available!

[View journal watch now](#)

## What's New

### Global Library of Women's Medicine ([GLOWM](#))

A new open access (FREE) online resource including 442 specialist peer reviewed chapters on women's medicine, authored by over 650 expert contributors and citing more than 40,000 references.

The chapters are supported by visual atlases to assist in diagnosis, video presentations of surgical procedures, interactive commentaries and patient information.

**Thank you, have a wonderful holiday and best wishes for the new year!**
