

How to access the ISUOG web portal

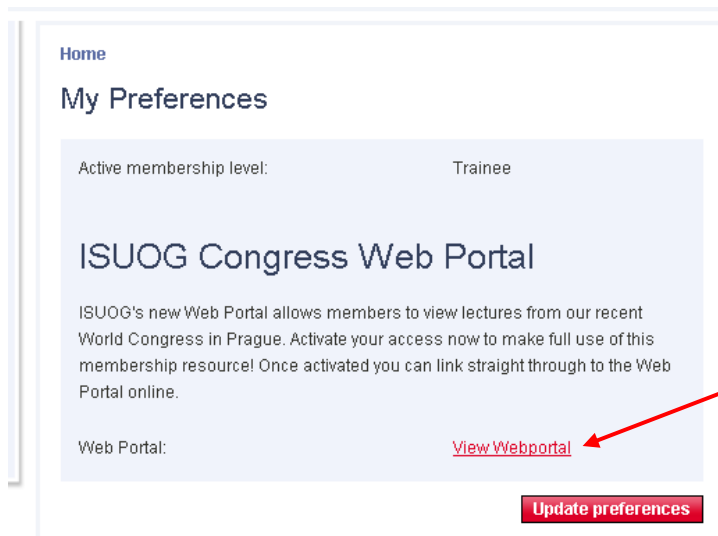

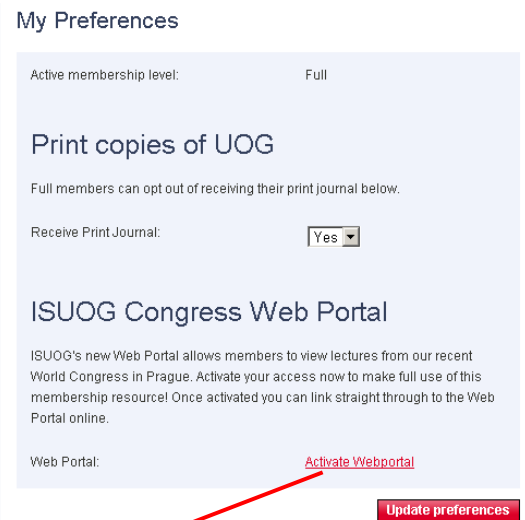

Go to www.isuog.org and login to your online ISUOG membership account.

Once logged in, in the top right hand corner of the website you will see 3 options. Click on 'Preferences'

On the Preferences page you will be asked to 'Activate Webportal' and once this is done the link will update and will show 'View Webportal'. You may need to refresh this page to see the updated link.

Please be aware that the Webportal will open in a new window and some browsers, e.g. Google Chrome, will block 'pop-up' windows. Ensure that you check your personal browser settings to allow the ISUOG OnDemand portal to open in a new window.

The International Society of Ultrasound in Obstetrics and Gynecology (ISUOG) is a membership organisation with more than 3,500 individual members in 100 countries. ISUOG exists to encourage the exchange of research information and to provide education on ultrasound within the field of obstetrics and gynecology.
