

	Saturday	Sunday	Monday	Tuesday	Wednesday	Thursday						
07:30-08:15	Registration	Registration	Use of 3D U/S in the fetus - B. Benacerraf Fetal kidney anomalies - K. Kalache	Abnormal uterine bleeding & US - S. Goldstein Early fetal echocardiography - J. Carvalho	Manipulating 3D volumes - L. Platt	Posterior fossa abnormalities - G. Pihu How to get the most out of your 3D volume - R. Chaoui						
08:30-09:00			State of the art lecture: The fetus and the newborn are distinct patients (TBC) - S. Eik-Nes	State of the art lecture: The endometrium prior to conception dictates pregnancy outcome - J. Brosens	State of the art lecture: The significance and outcome of specific types of congenital heart disease - L. Allan	State of the art lecture: A diagnostic approach to fetal syndromes - B. Benacerraf						
9:00-10:00 (60 mins)	PRE-CONGRESS COURSES 1. Fetal echocardiography 2. The practical application of ultrasound in routine gynecology	PRE-CONGRESS COURSES 3. The new role of the 11-14 week scan 4. CNS (including MRI) 5. Breast imaging	Young investigator award presentations	Live scan	Live scan	Abnormal uterine bleeding: uterine and endometrial pathology	Live scan	Screening for malignancy and scanning asymptomatic women	Live scan	The postmenopausal endometrium		
10:05-10:50			CHAired POSTER DISCUSSIONS									
10:45-11:15			COFFEE & POSTER VIEWING									
11:15-12:30 (75 mins)			Live scan	Top rated gynecology abstracts	Live scan	The assessment of endometriosis and adenomyosis	Live scan	Fetal and maternal Doppler	Diagnosis and management of ovarian pathology	Debate	Case examples and 'just images'	
			First trimester scan		Second trimester scan		Fetal cardiac anomalies			Preterm labour		
12:30-14:00			GE satellite symposium PerkinElmer satellite symposium (Hall D)		Siemens satellite symposium		Medison satellite symposium		Chaired poster discussions			
			LUNCH (12:30 - 14:00)									
			& SATELLITES (12:45 - 13:45)									
14:00-15:30 (90 mins)			Top 5 abstracts ISUOG outreach AGM	Live scan	Early pregnancy: miscarriage and growth	New technology and imaging	Reproductive medicine - baseline fertility scanning and PCO	Live scan	Imaging in the oncology patient	Live scan	Using ultrasound to assess urogynecology patients	
				Fetal heart		Chaired poster discussions		Multiple pregnancy		IUGR and fetal assessment		
15:30-16:00	Break	COFFEE & POSTER VIEWING						CLOSING				
16:00-18:00 (120 mins)	Special presentations Gold medal lecture	Obstetric complications	Early pregnancy: PUL and ectopic pregnancy	Live scan	Reproductive medicine - ultrasound and assisted reproduction	Live demonstration	Characterising ovarian pathology: the use of mathematical models and new technology					
		3D / 4D imaging				Invasive fetal therapy						
	Welcome reception	IUGR Management 2009 - A. Baschat Screening for Down syndrome - K. Nicolaidis		Congress Party		Fetal ventriculomegaly - A. Abuhamad Ductus arteriosus - C. Brezinka						

All you ever wanted to know' sessions
 Live scan session - 12 sold
 (XX) Number of abstracts received in that topic

Oral program **5 mins presentation + 3 mins discussion (TBC)**
Total of 141 abstracts each (Obs / Gyn) without invited lectures
90 mins - 11 abstracts
75 mins - 9 abstracts
60 mins - 7 abstracts
