

Understanding CSP and PAS: Concepts, Controversies and Clinical Practice

Chaired by Prof. Ilan Timor, Prof. Amar Bhide and A/Prof. Conrado Coutinho
Livestream
Sunday 12th April 2026

Learning Objectives:

- To understand the common pathophysiology between CSP and PAS disorders
- To learn how and when to screen for these conditions
- To better understand the diagnostic methods and signs for CSP and PAS
- To get updated about the preventive measures for these conditions
- To learn what are the best management strategies for CSP
- To recognize recent classifications and treatment strategies for PAS.

All delegates will receive access to the on-demand course: **Caesarean scar pregnancy and placenta accrete spectrum** (5 hours of asynchronous learning for them to complete ahead of our course). This will be included for free as part of their registration.

USA (EDT)	UK (BST)	Mins	
07:30	12:30	20	Introduction and welcome to the ISUOG guidelines
07:50	12:50	25	The changing theories regarding the pathophysiology of placental accretism.
08:15	13:15	20	All you want to know about the “culprit”: The post cesarean delivery NICHE
08:35	13:35	20	The “all-inclusive” Cesarean Scar Disorder detailed
08:55	13:55	20	From Definition to Detection: basic science
09:15	14:15	20	What is the definition and classification of controversies in CSP and PAS?
