

Learning from the masters Preeclampsia and Ultrasound

Chaired by Prof. Liona Poon and Daniel Rolnik

Livestream online

Wednesday 1st October 2025

Learning outcomes:

- Understand how we can predict and help prevent pre-eclampsia and other problems during pregnancy.
- Explain how pre-eclampsia and high blood pressure in pregnancy can affect the baby's growth.
- Describe how pregnancy affects a mother's heart and blood vessels during and after pregnancy.
- Understand the long-term effects on heart health for women who had pre-eclampsia in pregnancy.
