

Time (EST)	Time (BST)	Mins	Item	Speaker – Prefix, full name
Session 1: Co-Chairs: Ilan Timor and Judith Huirne				
07:00	12:00	10	Welcome and Introduction	Ilan Timor-Tritsch
07:10	12:10	30	CSP and PAS; Shifting from treatment to prevention (specific topics)	Vincenzo Berghella
07:40	12:40	10	The birth of the term 'niche' and its ultrasound detection	Ana Monteagudo
07:50	12:50	20	Clinical relevance of niches	Judith Huirne
08:10	13:10	15	The targets of prevention: CSP and PAS	Ilan Timor
08:25	13:25	15	Post-cesarean delivery syndrome	Maddalena Morlando
08:40	13:40	15	Pathophysiology of CSP for the practicing Ob/Gyn/MFM	Eric Jauniaux
08:55	13:55	45	Panel discussion – Live Q&A	All faculty
09:40	14:40	20	Refreshment Break	
Session 2: Co-Chairs: Ilan Timor and Simone Ferrero				
10:00	15:00	20	Strategies to improve the screening for CSP/PAS in low-income and middle-income countries	Conrado Coutinho
10:20	15:20	20	Have we exhausted trying different incision suture techniques?	Vincenzo Berghella
10:40	15:40	25	Endometrium-Free Closure Technique: History and resurrection	Clarel Antoine
11:05	16:05	10	Video presentation of Endometrium-Free Closure Technique	Clarel Antoine
11:15	16:15	15	Clinical results of the Endometrium-Free Closure Technique	Jessica Meyer
11:30	16:30	30	Panel discussion – Live Q&A	All faculty
12:00	17:00	30	Refreshment Break	
Session 3: Co-Chairs: Ilan Timor and Amar Bhide				
12:30	17:30	10	Introducing the debate	Andrea Kaelin Agten
12:40	17:40	30	Debate the treatment – non-surgical (ultrasound guided) management (Ilan) or surgical management (Davor Jurkovic) for scar pregnancy Debate moderator: Andrea Kaelin Agten	Ilan Timor and Davor Jurkovic
13:10	18:10	40	Panel discussion – Live Q&A	All faculty; Including Amar Bhide, Conrado Coutinho and Simone Ferrero
13:50	18:50	10	Feedback and close	Chairs – Ilan Timor and Amar Bhide

**Post-cesarean delivery niche:
Treatment & prevention of CSP**
Chaired by Prof. Ilan Timor-Tritsch

**Livestreamed Program
Sunday 21st January 2024**

Be part of this thoughtfully crafted program to delve into the latest discourse surrounding treatment and prevention in the Post-Cesarean delivery field. Stemming from an impassioned debate in early 2023, this program has been meticulously curated by Prof. Ilan Timor-Tritsch with support from Prof. Simon Meagher and the Courses Subcommittee. Gain insights from 10 esteemed experts spanning Europe and the Americas, engaging in lively discussions on this dynamic topic throughout 6 hours of immersive live online learning!

Learning Objectives:

- This course is aimed at the ob/gyn practitioners who receive, evaluate and decide about the planned route of delivery, amidst the sometimes challenging clinical and legal pressures.
- The attendees will improve their knowledge about the generation, anatomy and clinical fallout of post-cesarean delivery niches.
- Become familiar with 'post-cesarean delivery syndrome' to be able to relate to them and make efforts to reduce and even prevent them.
- Hear more about the present efforts to prevent the formation of post-cesarean delivery niches as the cause of many disorders such as uterine rupture, cesarean scar pregnancy and intermenstrual bleeding.
- Realise that cesarean scar pregnancy is part of the placenta accreta spectrum and a precursor of it that could be diagnosed by actively screening for it in the first trimester.
- Follow and draw conclusions from the debates on preventing the formation of cesarean delivery niches and their clinical consequences.
