## Instructions for abstract submission

- **What does this mean for abstracts selected for oral communication (OC)?** Once accepted for oral communication (OC), ISUOG will require the presenting author to submit their presentation as a pre-recorded video in advance of the Congress. Presenting authors will be sent detailed guidance on how to do this, once their abstract is accepted. This pre-recorded presentation will be played during the Congress session. ISUOG aims to be able to offer these presenting authors the choice of participating in the live part of the session (question and answer and discussion) either onsite in London or virtually. Presenting authors will be asked to indicate their preference as part of the submission form, and ISUOG will send more information about this to presenting authors after acceptance.
- **What does this mean for abstracts selected for poster presentation?** Once accepted for poster presentation, ISUOG will require the poster author to submit their poster in electronic format in advance of the Congress. Poster authors will be sent detailed guidance on how to do this, once their abstract is accepted. Posters will be made available electronically for delegates to access during the Congress. Poster authors can choose whether they register to attend the Congress onsite or online. ISUOG may also arrange specific poster presentation sessions/discussions, and will send more information about this to the relevant poster authors in due course.'
