

Managing uncommon early pregnancy complications

Chaired by A/Prof. Ligita Jokubkiene (Sweden)

Wednesday 1st July 2026

BST (UTC +1)	Mins	Lecture	Faculty
12:00	5	Welcome and introduction	A/Prof. Ligita Jokubkiene (Sweden)
12:05	20	Intrauterine but ectopic – diagnostic approach	A/Prof. Ligita Jokubkiene (Sweden)
12:25	20	Management strategies for intrauterine ectopic pregnancies	Dr Joel Naftalin (UK)
12:45	20	Molar pregnancy – diagnostic pitfalls and management	Dr Jackie Ross (UK)
13:05	20	Adnexal masses in early pregnancy – when to reassure and when to act	Prof. Tom Bourne (UK)
13:25	30	Live Q&A and panel discussion	All faculty
13:55	5	Feedback and close	A/Prof. Ligita Jokubkiene (Sweden)

Learning objectives

A/Prof. Ligita Jokubkiene (Sweden)

COURSES SUB-COMMITTEE CHAIR

Prof. Tom Bourne (UK)

ISUOG TRUSTEE, PAST PRESIDENT (2020-2022)

Dr Joel Naftalin (UK)

GYNACOLOGIST & EARLY PREGNANCY SPECIALIST AT UNIVERSITY COLLEGE LONDON HOSPITALS, UK

Dr Jackie Ross (UK)

CONSULTANT GYNACOLOGIST AND LEAD FOR THE EARLY PREGNANCY UNIT & GYNACOBIOLOGY ASSESSMENT UNIT AT KING'S COLLEGE HOSPITAL LONDON

1. Differentiate the ultrasound and clinical features of uncommon early pregnancy complications, including intrauterine ectopic pregnancies, molar pregnancies, and adnexal masses.

2. Apply evidence-based diagnostic approaches to intrauterine ectopic pregnancies, recognising key imaging findings and common diagnostic challenges.

3. Evaluate current management strategies for uncommon early pregnancy complications, including intrauterine ectopic and molar pregnancies, to support appropriate clinical decision-making.

4. Assess adnexal masses identified in early pregnancy and determine when conservative management, further investigation, or intervention is indicated.
