

Ultrasound in uterine pathology

Chaired by A/Prof. Ligita Jokubkiene and A/Prof. Tina Tellum

Livestream

Sunday 1st March 2026

Learning Objectives:

- Develop expertise in the ultrasound evaluation of endometrial pathology
- Gain expertise in ultrasound diagnosis of myometrial pathology
- Learn to differentiate benign from malignant uterine findings
- Enhance understanding of the management of symptomatic and asymptomatic women with sonographic findings in the uterus
- Gain skills in addressing diagnostic and management challenges in uterine pathology
- Expand knowledge of the roles of fibroids, adenomyosis, and endometrial pathology in infertility
- Understand the complementary roles of ultrasound and MRI in diagnosing adenomyosis
