			ISUOG INTERNATIONAL SYMPOSIUM			
		isuog	ASIA 19-20 NOVEMBER			
		IN	ULTRASOUND IN OBSTETRICS A			
	Time Zor	ie	SCIENTIFIC PROGRAM - 19	NOVEMDER 2022 (subject to change)		
New Dehli, India	Tokyo, Japan, Seoul, South Korea	Hong Kong, Manila, Philippines, Singapore	Stream 1	Stream 2		
			Opening plenary: Harmonizing gynecological cancer care in Asia			
05:20-05:55	08:50-09:25	07:50-08:25	Co-chairs: Liona Poon, Hong Kong, Mary Acda, Philippines			
00.20 00.00	00.30-03.23	VI.JU-00.20	Welcome message - Liona Poon, Hong Kong Message from President - Laurent Salomon, France			
			Harmonizing gynecological cancer care in Asia - Keiichi Fujiwara, Japan			
05:55-06:06	09:25-09:35	08:25-08:35	Inter			
			Great obstetrical syndromes (in collaboration with AOFOG)	How not to miss endometriosis in a routine pelvic ultrasound: a talk with experts		
			Co-Chairs: Hian Yan Dan Voon, Malaysia, Nelinda Catherine Pangilinan, Philippines	Co-Chairs: Narendra Malhotra, India, Nhat-Thang Tran, Vietnam		
			Introduction from AOFOG President - Pisake Lumbiganon, Thailand			
06:05-07:35	09:35-11:05	08:35-10:05	Is uterine artery Doppler the only ultrasound tool for prediction of preeclampsia? - Fabricio da Silva Costa, Brazil	Step by step ultrasound instruction manual for pelvic endometriosis - Mala Sibal, India		
00.05-07.55	09.35-11.05	08.35-10.05	Demonstration of techniques: uterine artery and ophthalmic artery -	Posterior compartment endometriosis: step-wise assessment -		
			An Chi Mu, United Kingdom Screening and prevention of pre-eclampsia in multiple pregnancies -	George Condous, Australia Anterior compartment endometriosis: bladder and ureters - Poonam		
			Jon Hyett, Australia	Charan, Australia Office gel sonovaginography: 3D in endometriosis - Stefano		
			Cervical length screening: TA or TV? - Hian Yan Dan Voon, Malaysia	Guerriero, Italy		
			Screening for GDM: is sonographic maternal fat assessment feasible? - Narelle Kennedy, Australia	[Ultrasound demonstration] Endometriosis evaluation in ten minutes - George Condous, Australia		
07:35-08:00	11:05-11:30	10:05-10:30	Brea			
	11:30-13:00	10:30-12:00	Placenta accreta spectrum: The new "caput medusa" in the obstetric battle field Co-Chairs: George Yeo, Singapore, Kwok-Ying Leung, Hong Kong	Challenges in ultrasound diagnosis of gynecologic abnormalities in pediatric and adolescent patients Co-Chairs: Airen Sigue, Philippines, TBC		
			Placenta accreta spectrum: how ultrasound diagnosis guides clinician management perspective - Rozi Aditya Aryananda, Indonesia	Ultrasound assessment of the uterus in adolescent patients: what are the common abnormalities? - Bo Hyon Yun, South Korea		
			MRI in the diagnosis of placenta accreta spectrum - José Palacios Jaraquemada, Argentina	[Ultrasound demonstration] Adolescent patient with abnormal uterine findings - Bo Hyon Yun, South Korea		
08:00-09:30			Placenta accreta spectrum appearing in the first and early second	What are the most common adnexal masses in pediatric and		
			trimesters - Jin-Chung Shih, Taipei	adolescent age group? - Airen Sigue, Philippines [Ultrasound demonstration] Adolescent patient with an ovarian new		
			[Ultrasound demonstration] Standarised ultrasound descriptors and	growth - Airen Sigue, Philippines Challenges in the diagnosis of PCOS in adolescent: what are the		
			rail sign of PAS - Jin-Chung Shih, Taipei	ultrasound criteria? - TBC [Ultrasound demonstration] Adolescent patient with features of PCOS		
				твс		
09:30-11:00	13:00-14:30	12:00-13:30	Lunch break and sport SGA and FGR: diagnosis, surveillance, and	onsored symposia		
	14:30-16:00	13:30-15:00	management	Diagnosis of congenital uterine anomalies		
			Co-Chairs: Mary Acda, Philippines, Tony Tan, Singapore Diagnosis: normal SGA vs abnormal SGA vs FGR fetus - Tony Tan,	Co-Chairs: Mee-Hwa Lee, South Korea, Sa-Ra Lee, South Korea New classification and diagnosis of congenital uterine anomalies:		
11:00-12:30			Singapore	practical considerations - Kanna Jayaprakasa, United Kingdom 3D ultrasound of obstructive and non-obstructive congenital uterine		
11.00 12.00			Surveillance: which parameters to use? - Bijoy Balakrishnan, India			
				anomalies - Sa-Ra Lee, South Korea		
			Management when and how to deliver. And so Dell'Actor Holy	MRI based diagnosis of congenital mullerian anomalies - Mi-Hyun Kim, South Korea		
			Management: when and how to deliver - Andrea Dall'Asta, Italy	MRI based diagnosis of congenital mullerian anomalies - Mi-Hyun		
12:30-13:00	16:00-16:30	15:00-15:30	Management: when and how to deliver - Andrea Dall'Asta, Italy	MRI based diagnosis of congenital mullerian anomalies - Mi-Hyun Kim, South Korea Uterine anomalies and preterm labor - Aparna Ramachandran, Australia		
12:30-13:00	16:00-16:30	15:00-15:30		MRI based diagnosis of congenital mullerian anomalies - Mi-Hyun Kim, South Korea Uterine anomalies and preterm labor - Aparna Ramachandran, Australia		
12:30-13:00	16:00-16:30	15:00-15:30	Brea Complicated twins: decisions and dilemmas Co-Chairs: Yves Ville, France, Prathima Radhakrishna, India	MRI based diagnosis of congenital mullerian anomalies - Mi-Hyun Kim, South Korea Uterine anomalies and preterm labor - Aparna Ramachandran, Australia k Infertility and ultrasound (in collaboration with Aspire)		
	16:00-16:30	15:00-15:30	Brea Complicated twins: decisions and dilemmas Co-Chairs: Yves Ville, France, Prathima Radhakrishna, India Management of atypical presentations of TTTS - Yves Ville, France MC / DC twins discordant for anomaly: decisions and dilemmas in	MRI based diagnosis of congenital mullerian anomalies - Mi-Hyun Kim, South Korea Uterine anomalies and preterm labor - Aparna Ramachandran, Australia K Infertility and ultrasound (in collaboration with Aspire) Co-Chairs: Tin-Chiu Li, South Korea, Ji Young Choi, South Korea Tubal assessment for infertility - Kamal Ojha, United Kingdom		
			Brea Complicated twins: decisions and dilemmas Co-Chairs: Yves Ville, France, Prathima Radhakrishna, India Management of atypical presentations of TTTS - Yves Ville, France	MRI based diagnosis of congenital mullerian anomalies - Mi-Hyun Kim, South Korea Uterine anomalies and preterm labor - Aparna Ramachandran, Australia Ak Infertility and ultrasound (in collaboration with Aspire) Co-Chairs: Tin-Chiu Li, South Korea, Ji Young Choi, South Korea Tubal assessment for infertility - Kamal Ojha, United Kingdom Ovarian assessment for infertility - Jacqueline Chung, Hong Kong		
			Brei Complicated twins: decisions and dilemmas Co-Chairs: Yves Ville, France, Prathima Radhakrishna, India Management of atypical presentations of TITS - Yves Ville, France MC / DC twins discordant for anomaly: decisions and dilemmas in management - Prathima Radhakrishna, India Radiofrequency ablation in complicated MC twins: is it the method of choice? - Suresh Seshadri, India	MRI based diagnosis of congenital mullerian anomalies - Mi-Hyun Kim, South Korea Uterine anomalies and preterm labor - Aparna Ramachandran, Australia Infertility and ultrasound (in collaboration with Aspire) Co-Chairs: Tin-Chiu Li, South Korea, Ji Young Choi, South Korea Tubal assessment for infertility - Kamal Ojha, United Kingdom Ovarian assessment for infertility - Jacqueline Chung, Hong Kong Uterine assessment for infertility - Sotirios Saravelos, United Kingdom		
13:00-14:30	16:30-18:00	15:30-17:00	Complicated twins: decisions and dilemmas Co-Chairs: Yves Ville, France, Prathima Radhakrishna, India Management of atypical presentations of TTS - Yves Ville, France MC / DC twins discordant for anomaly: decisions and dilemmas in management - Prathima Radhakrishna, India Radiofrequency ablation in complicated MC twins: is it the method of choice? - Suresh Seshadri, India The Issue of TAPS: current concepts in management - Liesbeth Lewi, Belgium	MRI based diagnosis of congenital mullerian anomalies - Mi-Hyun <u>Kim, South Korea</u> Uterine anomalies and preterm labor - Aparna Ramachandran, Australia Infertility and ultrasound (in collaboration with Aspire) <u>Co-Chairs: Tin-Chiu Li, South Korea, Ji Young Choi, South Korea</u> <u>Tubal assessment for infertility - Kamal Ojha, United Kingdom</u> Ovarian assessment for infertility - Jacqueline Chung, Hong Kong Uterine assessment for infertility - Sotirios Saravelos, United Kingdom Case-based discussions - Karen Ng, Hong Kong		
13:00-14:30			Breacher Stress	MRI based diagnosis of congenital mullerian anomalies - Mi-Hyun <u>Kim, South Korea</u> Uterine anomalies and preterm labor - Aparna Ramachandran, Australia Infertility and ultrasound (in collaboration with Aspire) <u>Co-Chairs: Tin-Chiu Li, South Korea, Ji Young Choi, South Korea</u> <u>Tubal assessment for infertility - Kamal Ojha, United Kingdom</u> Ovarian assessment for infertility - Jacqueline Chung, Hong Kong Uterine assessment for infertility - Sotirios Saravelos, United Kingdom Case-based discussions - Karen Ng, Hong Kong		
13:00-14:30 14:30-14:40	16:30-18:00	15:30-17:00	Complicated twins: decisions and dilemmas Co-Chairs: Yves Ville, France, Prathima Radhakrishna, India Management of atypical presentations of TTS - Yves Ville, France MC / DC twins discordant for anomaly: decisions and dilemmas in management - Prathima Radhakrishna, India Radiofrequency ablation in complicated MC twins: is it the method of choice? - Suresh Seshadri, India The Issue of TAPS: current concepts in management - Liesbeth Lewi, Belgium	MRI based diagnosis of congenital mullerian anomalies - Mi-Hyun <u>Kim, South Korea</u> Uterine anomalies and preterm labor - Aparna Ramachandran, Australia Infertility and ultrasound (in collaboration with Aspire) <u>Co-Chairs: Tin-Chiu Li, South Korea, Ji Young Choi, South Korea</u> <u>Tubal assessment for infertility - Kamal Ojha, United Kingdom</u> Ovarian assessment for infertility - Jacqueline Chung, Hong Kong Uterine assessment for infertility - Sotirios Saravelos, United Kingdom Case-based discussions - Karen Ng, Hong Kong		

Time Zone			SCIENTIFIC PROGRAM - 20 November 2022 (subject to change)		
New Dehli, India	Tokyo, Japan, Seoul, South Korea	Hong Kong, Manila, Philippines, Singapore	Stream 1	Stream 2	
			Plenary: Implementation of preeclampsia screening and prevention across Asia		
05:25-05:55	08:55-09:25	07:55-08:25	Co-chairs: Ritsuko Pooh, Japan, Suresh Seshadri, India Implementation of preeclampsia screening and prevention across Asia - Liona Poon, Hong Kong		
05:55-06:05	09:25-09:35	08:25-08:35		erval	
06:05-07:35	09:35-11:05	08:35-10:05	Fetal anomalies: intraabdominal pathologies	Updates on the recent diagnosis and management of ectopic pregnancies	
			Co-Chairs: Rafaie Amin, Malavsia, Jon Hvett, Australia Should we still report hydronephrosis? - Vivek Krishnan, India	Co-Chairs: Nguyen Ha, Vietnam, Simon Meagher, Australia Resolving diagnostic dilemmas in ectopic pregnancy using ultrasound	
			Hyperechogenic bowel and meconium peritonitis: identifying the cause and managing ongoing pregnancy - Hyun Jin Cho, South	- Valerie Guinto, Philippines Diagnosis of ectopic pregnancies in unusual locations - Nguyen Ha, Vietnam	
			Korea Anhydramnios in the second trimester: exploring the differential diagnosis - Rafaie Amin, Malaysia	The value of three dimensional ultrasound in the diagnosis of	
			Intraabdominal cysts: to discuss the differential diagnosis and outcomes of various intraabdominal cysts - Imelda Balchin, Malaysia	interstitial pregancy - Simon Meagher, Australia	
07:35-08:00	11:05-11:30	10:05-10:30		eak	
08:00-09:30	11:30-13:00	10:30-12:00	Fetal echocardiography: let's master fetal heart!	Pelvic floor ultrasound	
			Co-Chairs: Hye Sung Won, South Korea, Ashok Khurana, India Ultrasound demonstration: normal heart and a checklist for the	Co-Chairs: Aly Youssef, Italy, Rachel Cheung, Hong Kong	
			examination of the heart in the 2nd trimester - Hye Sung Won, South Korea	2D ultrasound in the diagnosis of pelvic floor injury - Clara Shek, Australia	
			An algorithmic approach to the four chamber view: a series of flow charts showing an "observation" and the road to anatomical diagnosis with relevant images - Ja Young Kwon, South Korea	3D and 4D ultrasound in the diagnosis of pelvic floor injury - Aly Youssef, Italy	
			The abnormal 3 vessel view: abnormal number - Ashok Khurana,	Undiagnosed OASIS - Symphorosa Chan, Hong Kong The use of ultrasound in the diagnosis of OASIS - Giulio Aniello	
			The abnormal 3 vessel view: abnormal size - Hye Sung Won, South Korea	Santoro, Italy	
09:30-11:00	13:00-14:30	12:00-13:30	Lunch break and s	Ultrasound demonstration: pelvic floor ultrasound - Aly Youssef, Italy ponsored symposia	
		13:30-15:00	Performing fetal neurosonography, from basic to advanced	Ultrasound challenges in scanning pelvic infections including pelvic tuberculosis	
			Co-Chairs: Ritsuko Pooh, Japan, Liona Poon, Hong Kong	Co-Chairs: Airen Sigue, Philippines, Regina Rosario Panlilio-Vitriolo, Philippines	
11:00-12:30			How to screen and diagnose fetal brain diseases - Rabih Chaoui, Germany	Diagnostic challenge in the ultrasound assessment of pelvic tuberculosis - Regina Rosario Panlilio-Vitriolo, Philippines	
			Fetal brain development and neurosonography - Ritsuko Pooh, Japan	[Ultrasound demonstration] Patient with pelvic tuberculosis - Regina Rosario Panlilio-Vitriolo, Philippines Ultrasound assessment of pelvic infections: tuba-ovarian abscess or	
			Fetal brain and genetics - Karina K. Haratz, Israel	complex, infected endometrioma - Airen Sique, Philippines	
			[Ultrasound demonstration] - Ritsuko Pooh, Japan	complex infected endometrioma - Airen Sique, Philippines How to differentiate tubo-ovarian abscess or complex versus rare	
			[Case discussion] One interesting case from Hong Kong, the other from Japan - Yi Man Wah, Hong Kong, Nana Matsuzawa, Japan	fallopian tube cancer based on ultrasound features? - Filomena San Juan, Philippines [Ultrasound demonstration] Pelvic abscess versus adnexal	
				malignancies - Filomena San Juan, Philippines	
12:30-13:00	16:00-16:30	15:00-15:30	Br	eak	
	16:30-18:00	15:30-17:00	Fetal therapy: decisions and dilemmas (in collaboration with APCFT)	Tips and tricks in oncology ultrasound	
			Co-Chairs: TY Leung, Hong Kong, Tuangsit Wataganara, Thailand	Co-Chairs: Dirk Timmerman, Belgium, Nguyen Ha, Vietnam	
13:00-14:30			Congenital diaphragmatic hernia: choosing the ones to treat - Jan Deprest, Belgium	Endometrial cancer: ultrasound diagnosis - Mala Sibal, India The multifaceted sonographic appearance of gestational trophoblastic	
			Fetal pleural effusions: shunting for all? - TY Leung, Hong Kong Lower urinary tract obstructions: when and how to intervene? -	disease - Nguyen Ha, Vietnam	
			Tuangsit Wataganara, Thailand	Sarcoma: how to image and diagnose it? - Antonia Testa, Italy	
14:30-14:40	18:00-18:10	17:00-17:10	Integrating the use of IOTA	erval	
14:40-15:10	18:10-18:40		descriptors and the ADNEX model into an intuitive two		
			Co-chairs: Liona Poon, Hong Kong, Airen Sigue, Philippines Closing message - Liona Poon, Hong Kong		
			Integrating the use of IOTA descriptors and the ADNEX model into an intuitive two step approach to classifying ovarian masses - Dirk		
			Timmerman, Belgium
