

ISUOG 2024 Pre-Congress Course: Obstetrics

TIME (CET)	MINS	SESSION & PRESENTATION TITLES
09:00	90	MORNING SESSION PART 1
	20	Fetal cardiac imaging in early gestation: How to screen and diagnose complex cardiac malformations
	20	Anomalies of cardiac chambers 1: Atrioventricular septal defects; common anomaly with an elusive diagnosis
	20	Anomalies of cardiac chambers 2: Hypoplastic left heart syndrome; predicting the very sick newborn
10:00	30	Discussion
10:30	30	BREAK
11:00	90	MORNING SESSION PART 2
	20	Anomalies of the great vessels 1: The many facets of tetralogy of Fallot
	20	Anomalies of the great vessels 2: Improving diagnosis of transposition of the great arteries
	20	Pitfalls in Screening for cardiac anomalies and the potential of Artificial intelligence
12:00	30	Discussion
12:30	60	LUNCH
13:30	90	AFTERNOON SESSION PART 1
	20	Candy bar or choroid bar on ultrasound: Which is a better predictor of cerebellar development?
	20	Dandy walker or what?
	20	The game changer of cerebellar development: The Rhombic Lip
14:30	30	Discussion
15:00	30	BREAK
15:30	90	AFTERNOON SESSION PART 2
	20	Exploring the corpus callosum: MRI insights into abnormalities, classifications, and related anomalies
	20	Deciphering the effects of fetal growth restriction on brain cortical development: predictive insights
	20	Deciphering fetal ventriculomegaly: From normal variants to indicators of genetic abnormalities, infections, and cerebral malformations
16:30	30	Discussion
17:00		CLOSE
