

Advanced ultrasound: guided interventions in gynecology

Chaired by A/Prof. Simone Ferrero (Italy) and Prof. Wouter Froyman (Belgium)

Friday 13th November 2026

GMT (UTC +0)	Mins	Lecture	Faculty
12:00	5	Welcome and introduction	A/Prof. Simone Ferrero (Italy) and Prof. Wouter Froyman (Belgium)
12:05	20	Ultrasound-guided biopsy in gynecological oncology: when, how, and for whom?	Prof. Wouter Froyman (Belgium)
12:25	20	Intraoperative ultrasound in reproductive surgery: from preoperative mapping to surgical navigation	A/Prof. Simone Ferrero (Italy)
12:45	20	Early pregnancy complications: when ultrasound changes management	A/Prof. Ligita Jokubkiene (Sweden)
13:05	20	Challenging gynecological emergencies: how ultrasound guides intervention	Prof. Davor Jurkovic (UK)
13:25	30	Live Q&A and panel discussion	All faculty
13:55	5	Feedback and close	A/Prof. Simone Ferrero (Italy) and Prof. Wouter Froyman (Belgium)

Learning objectives

A/Prof. Simone Ferrero (Italy)

COURSES SUB-COMMITTEE MEMBER

Prof. Wouter Froyman (Belgium)

A/Prof. Ligita Jokubkiene (Sweden)

COURSES SUB-COMMITTEE CHAIR

Prof. Davor Jurkovic (UK)

IAN DONALD GOLD MEDAL, 2020; ISUOG FELLOWSHIP, 2006

1. Identify the indications, techniques, and patient selection criteria for ultrasound-guided biopsy in gynecological oncology.
2. Describe the role of intraoperative ultrasound in reproductive surgery, including its use in preoperative mapping and real-time surgical guidance.
3. Recognise the ultrasound features of early pregnancy complications and challenging gynecological emergencies to support accurate diagnosis and appropriate clinical management.
4. Apply ultrasound findings to guide evidence-based clinical decision-making and intervention across a range of complex gynecological scenarios.
