

Early Pregnancy Complications

Chaired by Prof. Tom Bourne
Hybrid, Onsite in London, UK
Saturday 17th January 2026

Learning Objectives:

- Understand the criteria to diagnose miscarriage and the potential for error
- Learn about the psychological impact of miscarriage and latest work on how this may be ameliorated
- Be updated on the use of biomarkers in early pregnancy to manage PUL and ectopic pregnancy
- Understand how to diagnose and manage non-tubal ectopic pregnancy including caesarean scar pregnancy
- The assessment and management of ovarian cysts in pregnancy
- Be updated on the modern management of hyperemesis
- Understand how to assess retained pregnancy tissue and when to intervene

DAY 1: Saturday 17th January 2026

| UK (GMT) | Mins | Lecture |
|----------|------|--|
| 09:00 | 30 | Networking and refreshments <i>For onsite delegates only</i> |
| 09:30 | 10 | Introduction and welcome |
| 09:40 | 30 | The detection of structural abnormalities in the first trimester of pregnancy: what is the potential of ultrasound and does 3D help? |
| 10:10 | 30 | Avoiding error - Diagnosing miscarriage and features that predict probable miscarriage |
| 10:40 | 25 | Investigating and managing recurrent miscarriage – when should we investigate? What tests are worth doing? What treatment works? |
| 11:05 | 25 | Reducing the psychological impact of miscarriage: using cfDNA to give an underlying reason and interventions to reduce PTS symptoms. |
| 11:30 | 30 | Case examples and just images quiz: Early pregnancy bleeding and miscarriage |
| 12:00 | 70 | Refreshment Break <i>ISUOG will provide all onsite delegates with lunch</i> |
| 13:10 | 25 | Rationalising the management of Pregnancy of Unknown Location (PUL): an evidence-based approach to planning triage and follow up |
| 13:35 | 25 | Selecting women for expectant, medical and surgical management of tubal ectopic pregnancy |
| 14:00 | 25 | Non-tubal ectopic pregnancy – interstitial and cervical |
| 14:25 | 25 | Diagnosis and management of caesarean scar pregnancy |
| 14:50 | 30 | Case examples and just images quiz: PUL and ectopic pregnancy |
| 15:20 | 20 | Refreshment break |
| 15:40 | 25 | What causes Hyperemesis and best approaches to management |
| 16:05 | 25 | Management of ovarian cysts in pregnancy |
| 16:30 | 25 | Diagnosis and initial management of gestational trophoblast disease |
| 16:55 | 25 | Miscarriage management including evaluating retained pregnancy tissue – when to watch and wait and when to intervene |
| 17:20 | 30 | Final live panel discussion |
| 17:50 | 10 | Feedback and close |

Please note that this is a provisional schedule subject to change.
