

All industry symposia will take place in Hall A during the lunch breaks of the scientific program.

Date	Symposium details	Presentations & speakers
Friday 4 September 2026	GE HealthCare Industry Symposium 12:55–13:55	Seeing the unseen: fetal brain in unprecedented detail <i>Ritsuko Pooh</i>
		Uterine motion matters: a new era of insight in gynecology and fertility <i>Benedictus Schoot</i>
		The future of first trimester screening <i>Simon Meagher</i>
Saturday 5 September 2026	SonoScape Artificial intelligence and advanced technologies for screening and referral ultrasound 13:15–14:15	<i>Andrea Dall'Asta & Tullio Ghi</i>
Sunday 6 September 2026	Samsung Shaping the future of OB/GYN ultrasound: clinical excellence and innovation 13:15–14:15	Introducing EzHQ™: AI-powered fetal cardiac function assessment <i>Hyesung Won</i>
		The anterior and posterior brain complexes: a simplified approach <i>Basky Thilaganathan</i>
Monday 7 September 2026	GE HealthCare Secret of the Masters – the future unveiled: unlocking the latest innovations 13:05–14:05	<i>Rabih Chaoui & Bernard Benoit</i>

INDUSTRY PROGRAM

Room name	Hospitality suite name
Albert 1–2	Samsung: theSUITE Session
Albert 4–5	Samsung: theSUITE Lounge
Victoria 7	GE HealthCare: Voluson™ Meet the Experts

Room name	Hospitality suite name
Victoria 8	GE HealthCare: Voluson™ Club Lounge
Trinity 1–2	SonoScape: SonoElite Club
Trinity 4–5	SonoScape: SonoElite Lounge

Friday 4 September

Time (BST)	ISUOG Forum Exhibition hall	GE HealthCare Voluson™ Meet the Experts	Samsung theSUITE Session	SonoScape SonoElite Club
10:15–10:45	Pulsenmore Self-operated ultrasound: empowering women, transforming prenatal care <i>Sharon Perlman</i>	First trimester imaging: redefining what is possible <i>Petya Chaveeva</i>	Clarity, simplicity, confidence: the modern fetalultrasound examination <i>Elena Synkovskaya</i>	Fetal growth restriction in twins: diagnosis, management, and controversies <i>Asma Khalil</i>
12:40–14:10			Adolescent pelvic pain and endometriosis <i>Mathew Leonardi</i>	Thoraco-abdominal wall defects in the first trimester <i>Waldo Sepúlveda</i>
			What do you think about: AI support in second trimester screening <i>Oliver Kagan</i>	AI in fetal echocardiography: support or denial of the examiner? <i>Marcin Wiecheć</i>
16:25–16:55		Two diseases, one lens: mastering ultrasound in endometriosis and adenomyosis <i>Mathew Leonardi</i>	Intelligence built in: Samsung's AI evolution in fetal echocardiography <i>Mi-young Lee</i>	AI and precision imaging in fetal therapy: from diagnosis to intrauterine intervention <i>Enrique Gil Guevara</i>

Saturday 5 September

Time (BST)	ISUOG Forum Exhibition hall	GE HealthCare Voluson™ Meet the Experts	Samsung theSUITE Session	SonoScape SonoElite Club
10:35–11:05	Volutracer OPUS Building ultrasound foundations with Volutracer OPUS <i>Gihad Chalouhi</i> Advancing expertise in fetal echocardiography with Volutracer OPUS <i>Valentina De Robertis</i>	Making “sound” decisions in clutch situations: the role of POCUS <i>Mala Sibal</i>	Mastering deep endometriosis assessment: the synergy of IDEA/#Enzian protocols and next-generation imaging <i>Juan Luis Alcazar</i>	Imaging of female pelvic organs made easy: how to simply retrieve valuable information from advanced 2D and 3D ultrasound applications? <i>Michael Gembicki</i>
13:00–14:30		Beyond B-mode: the use of 3D imaging, power Doppler and GraphicFlow in gynecology and early pregnancy <i>Thierry van den Bosch & Kobe De Wilde</i> 13:00–13:30	First-trimester assessment of twin pregnancy: from determining chorionicity to early detection of complications <i>Asma Khalil</i> 13:40–14:20	Beyond diagnosis: a comprehensive approach to fetal urinary tract anomalies <i>Mohamed Kamal Etman</i>
		The first trimester: images, intelligence and impact <i>Aris Papageorgiou & Simon Meagher</i> 13:30–14:30		Advanced microvascular imaging in fetal medicine: from vascular visualisation to clinical insight <i>Yang Fang</i>
15:55–16:25	Philips From symptoms to diagnosis: evaluation of abdominal pain and bleeding with the eV14-2v probe <i>Gwendolin Manegold-Brauer</i>	Ultrasound screening for identifying surgical risk in complex Cesarean delivery <i>Rozi Aditya Aryananda</i>	Interactive 3D navigation in the AI era: how far can we go in fetal CNS assessment? <i>Ja Young Kwon</i>	Going into depth: how volume ultrasound facilitate an advanced US examination of the fetal brain? <i>Jan Weichert</i>

Sunday 6 September

Time (BST)	ISUOG Forum Exhibition hall	GE HealthCare Voluson™ Meet the Experts	Samsung theSUITE Session	SonoScape SonoElite Club
10:35–11:05	Philips Advancing fetal anomaly assessment: clinical applications of the alturion system <i>Gwendolin Manegold-Brauer</i>	Freckles & speckles <i>Jérôme Cornette & Sarah van den Wildenberg</i>	AI workflow, advanced AI and automated fetalbrain & cardiac imaging <i>BaskyThilaganathan</i>	Screening and prevention of SGA (small for GA) <i>Liona Poon</i>
13:00–14:30		Diagnosis of superficial endometriosis: does near field clarity help with the diagnosis? <i>Tom Holland</i> 13:00–13:45		Orads application in the assessment of adnexal masses and management decisions <i>Ligita Jokubkiene</i>
		To the edge: high resolution neurosonography in the extremes of pregnancy <i>Karina Krajden-Haratz</i> 13:45–14:30		How reliable is the IDEA methodology for the diagnosis of deep endometriosis? <i>George Condous</i>
				Contrast enhanced ultrasound imaging: clinical values in the diagnosis of adnexal tumors <i>Zhang Xinling</i>
15:55–16:25	Philips Achieving better maternal and child health outcomes through AI-powered solutions <i>Stephen Rulisa & Suresh Seshadri</i>	Mastering the hands-on: expert techniques for ultrasoundguided fetal procedures <i>Hiba Mustafa</i>	Beyond pregnancy: the postnatal window for cardiovascular risk assessment after hypertensive disorders of pregnancy <i>Liona Poon</i>	Transforming community gynecology: imaging-led pathways for modern women's health <i>Alan Treharne</i>

Monday 7 September

Time (BST)	ISUOG Forum Exhibition hall	GE HealthCare Voluson™ Meet the Experts	Samsung theSUITE Session	SonoScape SonoElite Club
11:20–11:50		From vision to prediction: ophthalmic artery Doppler throughout pregnancy <i>Liona Poon</i>	The myometrium unveiled: expert ultrasound for the modern gynecologist <i>Valentina Chiappa</i>	From ultrasound to surgery: an endoscopic surgeon's perspective <i>Farid Benaibouche</i>
12:50–14:20		Missed, misread, and misleading: lessons from gynecologic ultrasound cases <i>Yvette Groszmann</i> 12:50 - 13:20	To PAS and beyond: ultrasound before, during, and after complex Cesarean sections <i>Francesco D'Antonio</i> 13:30–14:10	
		Birth, maternal injury, and informed consent <i>Laura Berg</i> 13:20–14:20
