

Obstetrics scanning beyond the fetus

Chaired by Prof. Eric Jauniaux, Prof. Francesco D'Antonio & Prof. Davor Jurkovic

Livestream online

Sunday 26th October 2025

Learning outcomes:

1. **Analyse** current diagnostic criteria and evidence-based management strategies for placenta previa and placenta accreta spectrum disorders.
2. **Interpret** ultrasound findings of umbilical cord anomalies and **correlate** them with potential pregnancy outcomes.
3. **Demonstrate** the application of advanced imaging techniques to assess the utero-placental interface and **identify** pathological changes.
4. **Appraise** the impact of uterine conditions in pregnancy, including congenital anomalies, fibroids, and caesarean scar defects, on maternal-fetal health.
5. **Differentiate** benign from malignant ovarian tumours in pregnancy and **formulate** appropriate management plans.
6. **Evaluate** bladder and other pelvic pathologies during pregnancy using a systematic, evidence-based diagnostic approach.

UK GMT	Mins		Invited Faculty (Name and country)
SESSION 1: The placenta & umbilical Cord			
Chair: Prof. Francesco D'Antonio (Italy)			
08:00	5	Introduction and welcome	Prof. Eric Jauniaux (UK)
08:05	30	Placenta previa: 21 st century diagnosis and management	Prof. Amar Bhide (UK)
08:35	30	Placenta accreta: Ancient and new concepts	Prof. Eric Jauniaux (UK)
09:05	25	Cord anomalies: screening and outcomes	Dr. Cathrine Ebbing (Norway)
09:30	30	Case examples	Dr Yinka Oyelese (USA)
10:00	30	Live panel discussion	All faculty
10:30	20	Refreshment Break	
SESSION 2: The Uterus			
Chair: Prof. Davor Jurkovic (UK)			
10:50	25	Ultrasound in the evaluation of operative outcome in complex cesarean delivery	Prof. Ahmed Hussein (Egypt)
11:15	25	Prediction of PPH and other post CD complications	Prof. Francesco D'Antonio (Italy)
11:40	25	Management of hydatidiform moles and pregnancy	Prof. Eric Jauniaux (UK)
12:05	25	Live Scan	Prof. Christoph Lees (UK)
12:30	25	New imaging techniques for the examination of the utero-placental interface	Prof. Christoph Lees (UK)
12:55	30	Live panel discussion	All faculty
13:25	35	Refreshment break	

Please note that this is a provisional schedule subject to change.

SESSION 3: The pelvis**Chair: Prof. Eric Jauniaux (UK)**

14:00	25	Congenital uterine anomalies and pregnancy outcomes	Prof. Kanna Jayaprakasan (UK)
14:25	25	Diagnosis and Management of Endometriosis and Other Extrauterine Abnormalities in Pregnancy	Prof. Davor Jurkovic (UK)
14:50	25	Fibroids and pregnancy	Dr. Sebastian Hobson (Canada)
15:15	25	Ultrasound guided management of retained placental tissue	Dr. Joel Naftalin (UK)
15:40	30	Final live panel discussion	All faculty
16:10	5	Feedback and close	Prof. Eric Jauniaux (UK); Prof. Francesco D'Antonio (Italy); Prof. Davor Jurkovic (UK)
