

Ultrasound excellence in gynecological malignancies

Chaired by Prof. Lil Valentin and A/Prof. Ligita Jokubkiene

Livestream

Sunday 11th October 2026

Learning Objectives:

- Recognize typical sonographic features of benign, borderline, and malignant lesions in the ovary, uterus and cervix
- Systematically evaluate the extent of disease in patients with gynecological cancers (“ultrasound staging”)
- Integrate ultrasound findings into clinical decision-making in gynecological malignancies
- Recognize diagnostic challenges in gynecological oncology ultrasound and apply strategies to improve diagnostic accuracy.
- Interpret complex clinical cases by combining ultrasound findings with clinical history

UK BST (UTC+1)	Mins		Invited Faculty (Name and country)
SESSION 1: Ovarian malignancy			
Chairs: Prof. Lil Valentin and A/Prof. Ligita Jokubkiene			
08:00	10	Welcome and overview of the day	Prof. Lil Valentin (Sweden) A/Prof. Ligita Jokubkiene (Sweden)
08:10	30	When to suspect ovarian malignancy?	Prof. Lil Valentin (Sweden)
08:40	30	IOTA methods to discriminate between benign and malignant ovarian masses	A/Prof. Ligita Jokubkiene (Sweden)
09:10	20	Borderline ovarian tumours	Prof. Lil Valentin (Sweden)
09:30	30	Primary epithelial invasive and metastatic ovarian tumours	Dr Chiara Landolfo (Italy)
10:00	20	Live Q&A and panel discussion	All faculty
10:20	20	Refreshment Break	
SESSION 2: Ovarian malignancy			
Chairs: Prof. Lil Valentin and A/Prof. Ligita Jokubkiene			
10:40	30	Rare malignant ovarian tumours	Dr Valentina Chiappa (Italy)
11:10	30	Assessing the extent of ovarian cancer (“staging”)	Prof. Daniela Fischerova (Czech Republic)
11:40	20	Lymph node assessment – signs of metastases, differential diagnoses	Prof. Daniela Fischerova (Czech Republic)
12:00	30	Case presentations – ovarian masses	Dr Valentina Chiappa (Italy)
12:30	20	Live Q&A and panel discussion	All faculty
12:50	40	Lunch Break	
SESSION 3: Endometrial and cervical cancer			
Chairs: Prof. Lil Valentin and A/Prof. Ligita Jokubkiene			
13:30	30	Detection and “staging” of endometrial cancer	Dr Filip Frühauf (Czech Republic)
14:00	20	How to recognize cervical malignancy on ultrasound	Dr Dorella Franchi (Italy)
14:20	20	Assessing the extent of cervical cancer (“staging”)	Dr Dorella Franchi (Italy)
14:40	30	Case presentations - endometrial cancer, cervical cancer	Dr Filip Frühauf (Czech Republic) Dr Valentina Chiappa (Italy) Dr Dorella Franchi (Italy)
15:10	20	Live Q&A and panel discussion	All faculty
15:30	30	Refreshment Break	

Please note that this is a provisional schedule subject to change.

SESSION 4: Uterine and retroperitoneal masses			
Chairs: Prof. Lil Valentin and A/Prof. Ligita Jokubkiene			
16:00	30	Uterine sarcoma – when to suspect and how to diagnose?	Prof. Antonia Testa (Italy)
16:30	20	Interventional diagnostic tool in gynecology: Tru-cut biopsy	A/Prof. Simone Ferrero (Italy)
16:50	20	Retroperitoneal and non-gynecological pelvic masses – differential diagnoses	Prof. Antonia Testa (Italy)
17:10	25	Ovarian tumors in pregnancy	Dr Chiara Landolfo (Italy)
17:35	20	Final live Q&A and panel discussion	All faculty
17:55	5	Feedback and close	Prof. Lil Valentin (Sweden) A/Prof. Ligita Jokubkiene (Sweden)
18:00		Finish
