

ISUOG WORLD CONGRESS 2026

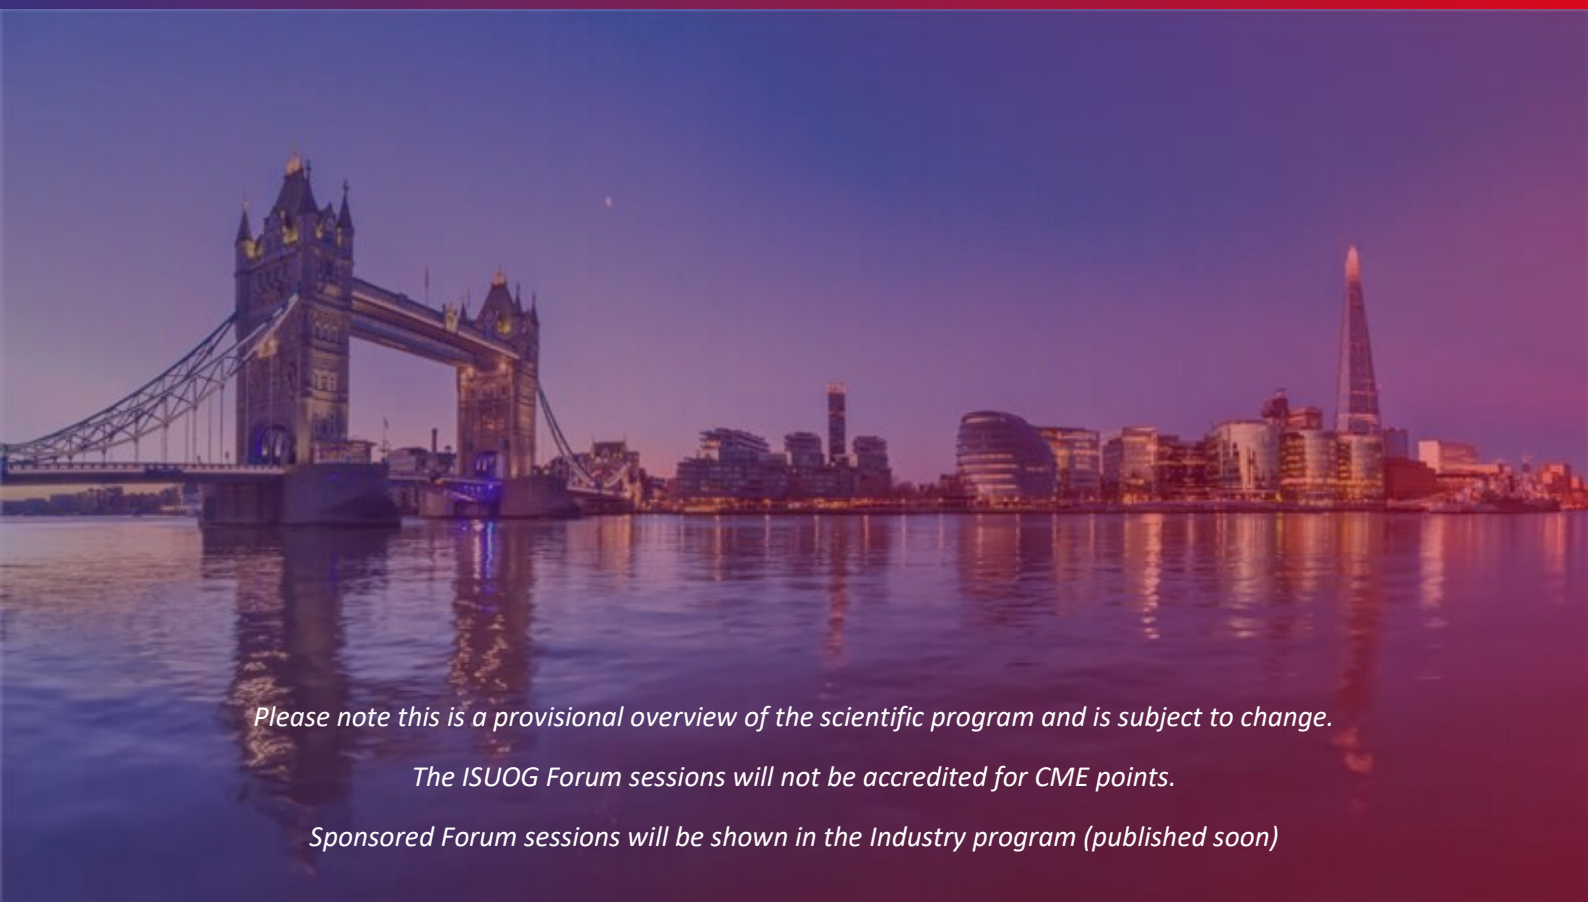

London, UK | 4 – 7 September 2026

SCIENTIFIC PROGRAM OVERVIEW

The **ISUOG World Congress 2026** will take place in-person and virtually in September 2026. Register to attend this 4-day scientific program created by and for global leaders in the profession, gain CME points, engage with industry partners and network with 2,500+ of your peers face-to-face.

Key dates:

- **Spring 2026:** Registration opens
- **30 March 2026:** Abstract submission deadline
- **30 April 2026:** Presenting author registration deadline
- **June 2026:** Abstract notifications
- **6 July 2026:** Early bird registration deadline
- **4 – 7 September 2026:** Congress

Please note this is a provisional overview of the scientific program and is subject to change.

The ISUOG Forum sessions will not be accredited for CME points.

Sponsored Forum sessions will be shown in the Industry program (published soon)

DAY 1: 4 SEPTEMBER 2026

Time <i>(British Summer Time)</i>	Rooms			
	SESSION HALL A	SESSION HALL B	SESSION HALL C	FORUM
08:30 - 08:40	Welcome to ISUOG 2026			
08:40 – 09:25	Top abstracts 2026			
09:25 – 10:15	[PL] Ian Donald Gold Medal and Stuart Campbell Award			
10:15 - 10:45	Coffee break			
10:45 – 11:55	[WS] Malformations of cortical development from A to Z	[WS] Placental disorders uncovered: from early signals to operative strategy	[WS] The value of ultrasound in the non-surgical management of pelvic pain	
11:55 – 12:00	Interval			
12:00 – 12:40	[MC] Decoding the fetal brain: deep phenotyping in utero	[MC] Placenta accreta spectrum: seeing the vessels, shaping the outcome	[MC] Endometriosis: the paradigm shift	[Forum] Seeing more, scanning less: AI and the future of ultrasound
12:40 – 14:10	Lunch Industry symposium (12:55 – 13:55)			
14:10 – 15:20	[WS] At the bedside: point-of-care ultrasound and other strategies to improve maternal and fetal outcomes	[WS] Beyond TORCH: modern diagnosis and management of fetal infections	[WS] Ultrasound in the acute setting	[Forum] Incidental finding of endometriosis and adenomyosis: what now?
15:20 – 15:25	Interval			
15:25 - 16:25	[OC] Reframing the developing brain	[OC] Placenta: Predicting, preventing, preparing	[OC] Pelvic pain and endometriosis	NGen daily digest
16:25 – 16:55	Coffee break			
16:55 – 17:40	AGM			
17:40 – 18:00	Opening Ceremony			
18:00 – 19:30	Welcome reception (Exhibition hall)			
ePosters are available to view throughout the event.				

Please note this is a provisional overview of the scientific program and is subject to change.

The ISUOG Forum sessions will not be accredited for CME points.

Sponsored Forum sessions will be shown in the Industry program (published soon)

DAY 2: 5 SEPTEMBER 2026

Time (British Summer Time)	Rooms			
	SESSION HALL A	SESSION HALL B	SESSION HALL C	FORUM
08:30 - 09:00	[PL] The pyramid of care 15 years later: how well is it working		[PL] The endometrium: the key to a successful pregnancy	
09:00 – 09:30	[PL] Nothing about us without us: embedding the patient voice in women's health research			
09:30 - 09:35	Interval			
09:35 – 10:35	[OC] From Doppler to deep learning in fetal heart	[OC] Mind the curve: what is new in fetal growth	[OC] Fertility workup and fertility preservation	[Forum] Innovations & simulations
10:35 – 10:55	Coffee break			
10:55 – 12:15	[WS] Every Little Heart Matters	[WS] Prevention, prediction and diagnosis of FGR	[WS] The role of ultrasound in managing fertility patients	
12:15 – 12:20	Interval			
12:20 – 13:00	[OP] Risk stratification in modern obstetrics	[OP] Revisiting the small fetus	[OP] Fertility workup and fertility preservation	
13:00 – 14:30	Lunch Industry symposium (13:15 – 14:15)			
14:30 – 15:10	[MC] Keeping up with the beat: diagnosis and management of fetal arrhythmias	[MC] Management of late fetal growth restriction	[MC] The next level of expertise in ultrasound diagnosis and staging of gynecological malignancies	[Forum] Congenital uterine anomalies in children and young adolescents: cases
15:10 – 15:15	Interval			
15:15 – 15:55	[OP] From diagnosis to outcome prediction of fetal cardiac anomalies	[OP] Predicting adverse pregnancy outcome	[OP] Imaging in oncology	
15:55 – 16:25	Coffee break			
16:25 – 17:35	[WS] Nuances of the fetal heart evaluation: advancing our understanding	[WS] From the first trimester forward: using imaging and bodily fluid biomarkers to prevent late-pregnancy morbidity	[WS] The pre- and intra-operative evaluation of gynecological cancer	NGen daily digest
ePosters are available to view throughout the event.				

Please note this is a provisional overview of the scientific program and is subject to change.

The ISUOG Forum sessions will not be accredited for CME points.

Sponsored Forum sessions will be shown in the Industry program (published soon)

DAY 3: 6 SEPTEMBER 2026

Time <i>(British Summer Time)</i>	Rooms			
	SESSION HALL A	SESSION HALL B	SESSION HALL C	FORUM
08:30 - 09:00	[PL] Stuart Campbell Lecture - ASPRE trial: effects of aspirin on blood pressure and uterine artery Doppler in pregnancy			
09:00 – 09:30	[PL] Compassion as strategy: innovating for global health & Gandhian thought			
09:30 – 09:35	Interval			
09:35 – 10:35	[OC] Anomalies diagnosis in 2026: earlier, sharper, smarter	[OC] Genetic disorders: solving the prenatal sphinx	[OC] Early pregnancy	[Forum] Every Little Heart Matters
10:35 – 11:05	Coffee break			
11:05 – 12:15	[WS] First trimester anatomy	[WS] Precision prenatal diagnosis	[WS] Ultrasound for improving care in early pregnancy complications	
12:15 – 12:20	Interval			
12:20 – 13:00	[OP] Stepping forward in fetal phenotyping	[OP] Diagnosis of ovarian masses	[OP] Early pregnancy	
13:00 – 14:30	Lunch Industry symposium (13:15 – 14:15)			
14:30 – 15:10	[MC] Faces tell stories: fetal dysmorphology	[MC] Confined placental mosaicism in 2026: what's new?	[MC] Early pregnancy care: an update	[Forum] Urogynecology
15:10 – 15:15	Interval			
15:15 – 15:55	[OP] The architecture of fetal brain development	[OP] Frontiers in fetal intervention	[OP] Pelvic pain and endometriosis	
15:55 – 16:25	Coffee break			
16:25 – 17:35	[WS] New insights in the management of abnormal uterine bleeding: the importance of ultrasound	[WS] Fetal sequencing in 2026: state-of-the-art and challenges (in partnership with ISPD)	[WS] Ultrasound-based management versus standard care on the labor unit	NGen daily digest
19:00 onwards	CONGRESS PARTY (ticket holders only)			
ePosters are available to view throughout the event.				

Please note this is a provisional overview of the scientific program and is subject to change.

The ISUOG Forum sessions will not be accredited for CME points.

Sponsored Forum sessions will be shown in the Industry program (published soon)

DAY 4: 7 SEPTEMBER 2026

Time (British Summer Time)	Rooms			
	SESSION HALL A	SESSION HALL B	SESSION HALL C	FORUM
08:30 - 09:30	[OC] New insights in intertwin growth imbalance	[OP] Bleeding, endometrial and myometrial pathology	[OC] Diagnosis of ovarian masses	[Forum] Basic Training
09:30 – 09:35	Interval			
09:35 – 10:15	[MC] Rethinking twins: beyond singleton models to precision care	[MC] Prediction and prevention of preterm birth today and tomorrow	[MC] The importance of ultrasound before and during surgery	
10:15 – 10:20	Interval			
10:20 – 11:20	[OC] New tools to access fetal risk in complex pregnancies	[OC] The intelligent labor ward: precision-guided deliveries	[OC] Bleeding, endometrial and myometrial pathology	[Forum] Evaluating ovarian tumors: case illustrations
11:20 – 11:50	Coffee break			
11:50 – 12:50	[OC] Advances in preventive obstetrics	[OC] Innovations in fetal intervention	[OC] Imaging in oncology	NGen daily digest
12:50 – 14:20	Lunch Industry symposium (13:05 – 14:05)			
14:20 – 15:30	[WS] Integrating hemodynamic, imaging, and clinical data for individualized management of complex twin pregnancies	[WS] Optimizing fetal therapy: from early intervention to advanced surgical techniques and outcome prediction	[WS] Refining the diagnosis of ovarian masses and improving management	
15:30 – 15:35	Interval			
15:35 – 16:15	[MC] Transforming fetal therapy: from artificial womb technologies to clinical trials in fetal surgery	[MC] Decoding pre-eclampsia: from maternal microbiome to molecular subtypes	[MC] Interpreting ultrasound findings in the pediatric and adolescent population	
16:15 – 16:20	Interval			
16:20 – 17:20	Closing plenary			
ePosters are available to view throughout the event.				

Please note this is a provisional overview of the scientific program and is subject to change.

The ISUOG Forum sessions will not be accredited for CME points.

Sponsored Forum sessions will be shown in the Industry program (published soon)
