

Ultrasonography in patients with gynecological cancers

Chaired by A/Prof. Simone Ferrero & Dr Valentina Chiappa

Livestream course program
Sunday 30th June 2024

Learning Objectives:

- Improve your knowledge of the ultrasonographic anatomy of the normal pelvis
- Gain expertise in assessing adnexal masses and defining their risk of malignancy
- Improve the diagnosis of adnexal masses through their pattern recognition
- Learn a methodology on how to assess intrabdominal spread of ovarian cancer
- Become familiar with the ultrasonographic features of endometrial cancer
- Learn which imaging to require to complement ultrasound in staging endometrial and cervical cancer
- Hear more about the use of ultrasonography in vulvar and vaginal cancer
- Learn how to use 3D ultrasound in the assessment of gynaecological cancer

Time	Mins	Item	Speaker – Prefix, full name
08:00	5	Welcome and Introduction	Prof. Simone Ferrero and Dr Valentina Chiappa
08:05	25	Ultrasound anatomy of the normal pelvis	Prof. Jessica Preisler Romanow (Chile)
08:30	25	Ultrasound for the differential diagnosis of adnexal masses: comparison with surgical findings	A/Prof. Simone Ferrero (Italy)
08:55	25	Ultrasound features of adnexal malignancies	Dr Valentina Chiappa (Italy)
09:20	25	Ultrasound assessment of intra-abdominal spread of disease	Prof. Antonia Testa (Italy)
09:45	30	Panel discussion – Live Q&A	All faculty
10:15	15	Refreshment Break	
10:30	25	Ultrasound features of endometrial cancer	Dr Mala Sibal (India)
10:55	25	TBC	Prof. Elisabeth Epstein (Sweden)
11:20	25	Role of imaging in staging of endometrial and cervical carcinoma	A/Prof. Ligita Jokubkiene (Sweden)
11:45	25	Ultrasound features of uterine sarcomas	Prof. Thierry Van Den Bosch (Belgium)
12:10	30	Panel discussion – Live Q&A	All faculty
12:40	50	Lunch	
13:30	20	Ultrasound features of gestational trophoblastic disease	Dr Wouter Froyman (Belgium)
13:50	20	Ultrasound in vulvar and vaginal cancer	Prof. Daniela Fischerova (Czech Republic)
14:10	20	Three-dimensional ultrasound for assessing women with gynecological cancer	Prof. Juan Luis Alcazar (Spain)
14:30	25	Clinical cases: adnexal masses	TBC
14:55	30	Panel discussion – Live Q&A	All faculty
15:25	5	Feedback and close	Dr. Valentina Chiappa and Prof. Simone Ferrero

Please note that this is a provisional schedule subject to change.
