

Ultrasound diagnosis of less common conditions encountered in gynecology

Saturday 13 November

Livestream course program
Chairs: A. Testa (Italy); L. Valentin (Sweden)

Learning Objectives:

- Recognize ultrasound signs of adnexal torsion
- How to ascertain that a mass is retroperitoneal
- To recognize using ultrasound bladder stones, GIST, malignant and benign retroperitoneal tumours
- How discriminate between retained products of conception and gestational trophoblastic disease on ultrasound
- To recognize the ultrasound appearance of gestational trophoblastic disease
- To recognize the ultrasound features of benign and malignant adnexal masses in pregnancy

Saturday 13 November 2021			
Time (GMT)	Mins		Speaker
09:00	5	Welcome and Introduction to sessions 1 and 2	L. Valentin (Sweden) Antonia Testa (Italy)
Session 1: Torsion – Chaired by Prof. Testa			
09:05	28	Introduction and the theory of torsion, including treatment	A. Testa (Italy)
09:33	27	Case presentations	F. Moro (Italy); M. Sibal (India)
10.00	10	The pathologists view	G. F. Zannoni (Italy)
10:10	15	Q&A	All faculty
10:25	15	Break	
Session 2: Non-gynecological conditions – Chaired by Prof. Valentin			
10:40	20	Overview: GIST, retroperitoneal tumours and other pathology	L. Valentin (Sweden)
11.00	25	Ultrasound pelvic anatomy: how do we know it is not an adnexal or uterine mass?	A. Testa (Italy)
11:25	40	Case presentations	V. Bertoldo (Italy); D. Fischerova (Czech Republic); D. Jurkovic (UK); J. Yazbek (UK); L. Kaur (India)
12:05	10	The pathologists view (retroperitoneal masses)	G. Zannoni (Italy)
12:15	15	Q&A	All faculty
12:30	5	Summary	A. Testa (Italy)
12:35	60	Break	

13:35	5	Introduction to sessions 3 and 4	A. Testa (Italy)
Session 3: Gestational trophoblastic disease – Chaired by Prof. Testa			
13:40	25	The background, theory, treatment and, the TITANIUM study	D. Verri (Italy)
14:05	20	The pathologists view (trophoblastic disease)	G. Zannoni (Italy)
14:25	10	Q&A	All faculty
14:35	10	Ultrasound images of GTD	V. Chiappa (Italy)
14:45	10	Ultrasound images of RPOC and AV malformations	F. Mascilini (Italy)
14:55	45	Case presentations	V. Chiappa (Italy); F. Moro (Italy); R. Fruscio (Italy); F. Mascilini (Italy)
15:40	15	Q&A	All faculty
15:55	15	Break	
Session 4: Adnexal masses in pregnancy – Chaired by Prof. Valentin			
16:10	30	Overview of the diagnosis of masses (including decidualization) in pregnancy	A. Testa (Italy)
16:40	30	Treatment of adnexal masses in pregnancy	F. Amant (Belgium)
17:10	25	Case presentations	F. Mascilini (Italy); L. Valentin (Sweden)
17:35	20	Q&A	All faculty
17:55	5	Summary	L. Valentin (Sweden)
18:00		Course ends	

Please note that this is a provisional schedule subject to change.
