- Increase the level of knowledge of complications and appreciate existing controversies
- Promote a multidisciplinary approach to the management of women with multiple pregnancy
- Gain confidence in managing multiple pregnancy
- Appreciate the indications for fetal interventions

Time	Mins	Item	Speaker – Prefix, full name
08:00	5	<b>Welcome and Introduction</b>	Asma Khalil
08:05	20	<b>Multiple pregnancy: assessment in early pregnancy</b>	Simon Meagher
08:25	20	<b>Screening for chromosomal abnormalities in Twin and Multiple Pregnancy</b>	Katia Bilardo
08:45	20	<b>Prenatal diagnosis: does invasive testing increase the risk of miscarriage or not?</b>	Laurent Salomon
09:05	30	<b>Lecture</b> - <b>With Case examples + poll</b>	TBC
09:35	45	<b>Panel discussion – Live Q&amp;A</b>	All faculty
<b>10:20</b>	<b>20</b>	<b>Refreshment Break</b>	
10:40	20	<b>Triplet pregnancy: prenatal screening and monitoring</b>	Liesbeth Lewi
11:00	20	<b>Fetal growth restriction in twin pregnancy: update</b>	Asma Khalil
11:20	20	<b>Active fetal interventions should be offered to monochorionic twin pregnancies with selective fetal growth restriction: Debate</b> <b>For:</b> Yves Ville <b>Against:</b> Ahmet Baschat	Yves Ville Ahmet Baschat
11:40	30	<b>Lecture</b> - <b>With Case examples + poll</b>	TBC
12:10	45	<b>Panel discussion – Live Q&amp;A</b>	All faculty
<b>12:55</b>	<b>45</b>	<b>Lunch</b>	
13:40	30	<b>Lecture</b>	TBC
14:10	15	<b>Twin pregnancies should be assessment using twin-specific charts: Debate</b> <b>For:</b> Erkan Kalafat or Nir Melamed <b>Against:</b> David Wright	Erkan Kalafat/ David Wright
14:25	15	<b>Reduction in multiple pregnancy: counselling and techniques</b>	Mark Evans
14:40	15	<b>Screening and prevention of preterm birth in multiple pregnancy</b>	Roberto Romero
14:55	45	<b>Panel discussion – Live Q&amp;A</b>	All faculty
15:40	5	<b>Feedback and close</b>	Asma Khalil

## Day 2

### Learning Objectives:

- Be familiar with the recent guidance update on role of ultrasound in twin and multiple pregnancy
- Be up-to-date with new advances in the prenatal diagnosis and management of complicated multiple pregnancy
- Increase the level of knowledge of complications and appreciate existing controversies
- Promote a multidisciplinary approach to the management of women with multiple pregnancy
- Gain confidence in managing multiple pregnancy
- Appreciate the indications for fetal interventions

Time	Mins	Item	Speaker – Prefix, full name
08:00	5	<b>Welcome and Introduction</b>	Asma Khalil
08:05	20	<b>Twin-to-twin transfusion syndrome: how to improve the outcomes?</b>	Kurt Hecher
08:25	20	<b>Discordance in twin pregnancies</b>	Francesco D'Antonio
08:45	20	<b>Monoamniotic twin pregnancy: how different is their management?</b>	Liesbeth Lewi
09:05	30	<b>Lecture</b> - With Case examples + poll	TBC
09:35	45	<b>Panel discussion – Live Q&amp;A</b>	All faculty
<b>10:20</b>	<b>20</b>	<b>Refreshment Break</b>	
10:40	20	<b>All monochorionic twin pregnancies should be monitored for TAPS:</b> <b>For:</b> Enrico Lopriore <b>Against:</b> Monique Haak	Enrico Lopriore/ Monique Haak
11:00	20	<b>Atypical Twin-to-twin transfusion syndrome</b>	Asma Khalil
11:20	20	<b>Fetoscopic intervention in multiple pregnancy: how to improve training?</b>	Rogelio Cruz Martinez
11:40	30	<b>Lecture</b> - With Case examples + poll	Surabhi Nanda
