

ISUOG Basic Training Course in partnership with WFUMB

Course Chair: Susan Westerway (Australia)

Susan Westerway served as President of ASUM from 2014-2016 and has been a WFUMB Councillor since 2015. She is Adjunct Associate Professor in the School of Dentistry & Health Sciences in NSW, Australia. Susan has published many articles and won numerous prizes for her work. She has served as the lead trainer for PoCUS courses in Indonesia, Timor Leste, Bali, Malaysia & Australia and was involved with a major project involving the Indonesian Government & a trade partner to teach basic obstetric ultrasound to 20 midwives & 10 doctors from remote regions.

Course Chair: Nayana Parange (Australia)

Dr Nayana Parange is currently an associate Professor in Medical Sonography and the Associate Dean for Online education in the Division of Health Sciences, University of South Australia, Adelaide. Dr Parange's academic and professional background includes qualifications in medicine, specialist training in obstetrics and Gynaecology, ultrasound and education. Her career spans over thirty years, with clinical ultrasound experience in diverse settings, ranging from primary health care to tertiary maternal fetal medicine setting. She is the Founding Chair of ASUM outreach and has developed, delivered and mentored trainers for many ultrasound workshops across 14 countries including several ISUOG outreach workshops.

Caterina Watson (Australia)

Caterina Watson has worked in Obstetric and Gynaecology ultrasound for 20 years, an early highlight being the weekly interesting cases with Professor Lyn Chitty at University College London Hospital. She is currently working part-time at tertiary referral centre in Western Australia and engaged with postgraduate study. Volunteer work includes O&G POCUS training at Portmorseby General Hospital, PNG (<https://www.asum.com.au/outreach-blog/>), and committee member in research SIG for Australian Sonographers Association.

Sue Hewlett (Australia)

Sue Hewlett has been involved in Ultrasound since 1975 and has worked in hospitals and in Private practice working with Radiologists and Obstetricians. Sue has been on numerous ultrasound boards and has been heavily involved in teaching Ultrasound since 1975 both in Australia and abroad. Sue is currently working for the Australian School of Medical Ultrasound (ASMI) training sonographers, clinicians and Allied health professionals in Diagnostic Ultrasound.
