

# ISUOG Basic Training: Online Course

## Fetal anomalies and gynecology

### 10th—11th July

Join ISUOG Basic Training for a two-day, online course on fetal anomalies and gynecology.

Course Chairs Nikos Vrachnis and Aris Papageorghiou will lead a series of theoretical lectures, interactive discussion sessions, simulator demonstrations and live-scans.

This course can be live-streamed individually or as a satellite group. [Find out more](#) and see [the full program](#).
