

Look what you missed at the [29th World Congress on Ultrasound in Obstetrics and Gynecology](#). Our World Congress in Berlin was the biggest and most diverse Congress so far, with more than 3000 delegates from 115 countries. We would like to thank all our delegates and partners for making the congress a great success in every possible way and we are already looking forward to welcoming you all to our [30th World Congress in Glasgow](#).

Other updates for you this month include:

- New research from [UOG Journal](#)
- [Congress](#) update
- Education updates from [Basic Training](#)
- [Upcoming Education courses](#) including endometriosis and gynecologic oncology, fetal echocardiography and management of twins
- Launch of [Patient Information Series](#)
- [ENTOG and ISUOG](#) entered into a new partnership
- Appointment of [new Committee and Task force Chairs](#)

Best wishes,
The ISUOG Team

UOG Highlights

Congress Information

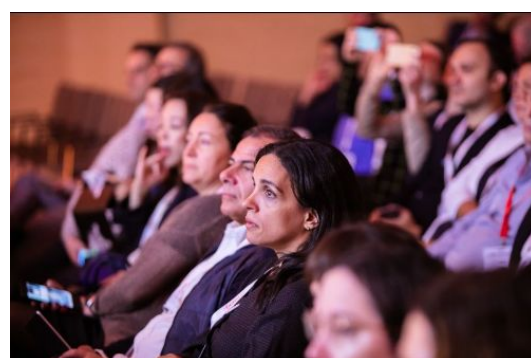

We would like to thank all our delegates, faculty, partners, sponsors and everyone that contributed to make the congress a great success in every possible way. Take a look at the [scientific awards](#), [abstract book](#) and to the [pictures](#), including social events, to have an idea of the special atmosphere of the event.

We will let delegates know when lectures from congress are available on our [On Demand](#) platform. If you attended the Congress and have still not received any communication from us regarding your certificates (including Certificate of Attendance and Basic Training Simulation Certificate), please email us at registration@isuog.org.

Congress Information

Upcoming ISUOG Education courses

We will be hosting the ['Endometriosis and gynecologic oncology: do they have something in common?'](#) course in London on 29 November 2019. The course can be attended on site or via live stream. This will be our final course for the year, but we have plenty more coming up in 2020 including two joint courses with SMFM in the USA on [management of twins](#) and making best use of [ultrasound in pregnancy](#), a course on [fetal echocardiography](#) and one on [perinatal doppler and vascular imagery](#).

All our upcoming [courses are available to live stream](#), which allows you to attend the course from anywhere in the world. By live streaming, you can participate in the course in real time, ask your questions, participate in discussions, receive your certificate of attendance, and also re-watch the course for a month after the course.

Education Courses

Upcoming ISUOG events

[Endometriosis and gynecologic oncology: do they have something in common?](#) 29 November 2019, London, UK and live streamed globally

[Modern management in twins: all you need to know](#) (in partnership with SMFM) 04 February 2020, Dallas, USA and live streamed globally

[Advances in fetal echocardiography](#) 21-22 February 2020, London, UK and live streamed globally

[ISUOG Basic Training: Fetal Anomalies](#) 02 April 2020, Sibiu, Romania

[Basic Training 20+2 Planes: Normal and Abnormal Fetal Anatomy](#), 02 April 2020 Cairo, Egypt

[16th ISUOG International Symposium](#), 03-04 April 2020, Cairo, Egypt and live streamed globally

[State of the art ultrasound in pregnancy](#) (in partnership with SMFM) 16-18 April 2020, USA and live streamed globally

[Basic Training Athens](#) 24-25 April 2020, Athens, Greece

[Doppler and maternal vascular imaging](#) 23-24 July 2020, London, UK and live streamed globally

[30th World Congress on Ultrasound in Obstetrics and Gynecology](#), 17-21 October 2020, Glasgow, UK

ISUOG events calendar

Basic Training

This month, Basic Training returned to Colombia for part two of the successful course in Medellin: [The Obstetric and Gynecological Ultrasound in Greater Depth: Fetal Anomalies and Gynecology](#), on November 8th and 9th. There are also several [Basic Training courses](#) coming up around the world in 2020 that will be delivered in English.

ISUOG Outreach travelled to Rwanda for the first time to initiate Phase 1 of our programme in conjunction with the Ministry of Health. Over 5 days, 4 international volunteers worked with 25 trainees new to ultrasound in Obstetrics and Gynecology. In this time alone, the trainees were able to identify 5 ectopic pregnancies, polycystic ovaries, preeclampsia and placenta praevia amongst other diagnosis, demonstrating their new skills. Find out more in [ISUOG Outreach blog](#).

Basic Training

Patient Information Series

ISUOG launched its [Patient Information Series](#) in Berlin. The aim of the series is to provide answers to the why, how and what now, and to help breakdown gynecological and obstetrical conditions in simple, easy to understand language for the benefit of women and their families. You can access the leaflets [here](#) or at the related [VISUOG](#) page.

Patient Information Series

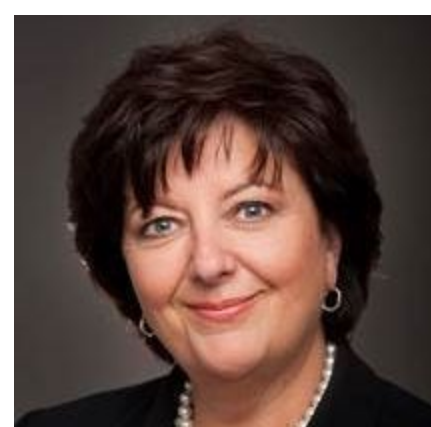

New partnership: ENTOG-ISUOG

ISUOG has entered into a [partnership](#), with the European Network of Trainees in Obstetrics and Gynaecology (ENTOG) to collaborate on global projects, education programmes and events, particularly around the ISUOG Basic Training for Ultrasound in Obstetrics and Gynecology, the [trainee partnership](#), and other ISUOG activities and resources. A Memorandum of Understanding was signed by Kata Bilardo, President of ISUOG, and Agnieszka Horala, Secretary General of ENTOG, at the 29th World Congress on Ultrasound in Obstetrics and Gynecology in Berlin.

Committee appointments

Meet our new Chairs for VISUOG Task force, Clinical Standards Committee and Outreach Committee

Dr. Karen Fung-Kee-Fung, MD, FRCS, MHPE has been appointed the new Chair of the VISUOG Task force. Karen Fung-Kee-Fung, has been a member of ISUOG since 1990 and serves on the CME Task Force for ISUOG. She has had a long-standing career in academic Maternal Fetal Medicine and Gynecological Ultrasound at the University of Ottawa, Ontario, Canada, for the past 30 years.

Lisbet Hanson, MD, FACOG has been appointed as the Chair of the Outreach Committee. She has been a member of ISUOG for 10 years. Dr. Hanson is a certified Da Vinci Robotics Surgeon, is the founding Medical Director of Women's Health and Chair of the surgical robotics program at Sentara Virginia Beach General Hospital, and is Assistant Professor at the Eastern Virginia Medical School. She has a keen interest in the application of innovative technology in the advancement of health outcomes and has received numerous awards on the local, state and national level recognizing her contributions to community service and women's health.

Federico Prefumo has been appointed Chair of the Clinical Standards Committee. He is currently Associate Professor at the University of Brescia, Italy, and Consultant Obstetrician at Spedali Civili di Brescia Hospital. His clinical and research interests include Doppler and biochemical screening of pregnancy complications (pre-eclampsia, fetal growth restriction), ultrasonographic and biochemical screening of aneuploidies, maternal cardiovascular function in pregnancy and management of complicated twin pregnancies.
