

ISUOG Newsletter

June 2020

We would like to share with you our ambitious plans for ISUOG's Virtual Congress on Ultrasound in Obstetrics and Gynecology. As with all our congresses, the virtual meeting will deliver the highest-quality educational and informational content, bringing together the leading names in the field and building an exciting atmosphere and experience for all our community. We will harness the digital experience by including both scanning procedures and surgical feeds into the meeting. This will not be anything like the "Zoom meetings" we have all had to live with in recent months.

In addition to ensuring a cutting-edge scientific program, our 30th World Congress will offer you interactive parallel session halls, breakout rooms, a wellbeing zone, an industry information exchange, networking areas and much more. Registration fees have been reduced by more than 40% compared to our physical congress, and trainees, sonographers, low-resources countries and ISUOG members benefit from bigger discounts. We will put together a digital congress that will exceed all your expectations and be a meeting that will be worthy of celebrating our 30th anniversary. [We warmly invite you to come and make it possible.](#)

Warm wishes from us all,

Prof. dr. C.M. (Katia) Bilardo
Technical Chair

Prof. Tom Bourne
Technical Chair

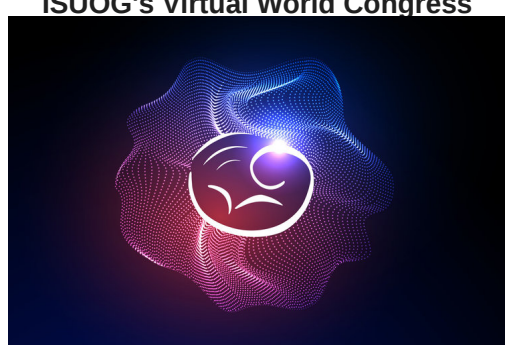

Prof. Alan Cameron
Honorary Chair

Prof. Stuart Campbell
Honorary Chair

ISUOG's Virtual World Congress

Join us for a Virtual Congress that will exceed your expectations with interactive sessions, breakout rooms, wellbeing zone, exhibitors, networking areas and much more.

ISUOG will deliver a cutting-edge and innovative scientific program incorporating leading experts in the field. More will soon join our confirmed keynote and masterclass speakers, to headline our comprehensive program.

Already we have the below keynote lectures confirmed:

- Prof. Christine Mummery - "Stem cells: new drugs and new people"
- Prof. Stuart Campbell - "History of Ultrasound"
- Prof. Tom Bourne "Burnout and wellbeing"

[Become an ISUOG member today to benefit from further discounts](#) and join us on Friday 16 to Sunday 18 October 2020!

Volunteer Translators Needed (Hindi)

ISUOG Patient Information Task force is looking to recruit volunteers to help translate and review the lay language Patient Information leaflets in Hindi. ISUOG Patient Information series includes leaflets on obstetrical and gynecological conditions, and are written and reviewed by medical professional in simple, easy to understand language for the benefit of women and their families.

This position is open to ISUOG [members only](#). Find out more and [apply before midnight 15th July 2020](#).

[Apply now](#)

Abstract Submission

Submit your abstract now! We have **re-opened** submissions until Monday 22 June 2020 to support the many clinicians on the front-lines who were unable to submit their research and who wish to publish and present their work. Those of you who submitted in the first round can also amend their research before the deadline. Please note, we are accepting COVID-19 related papers.

Visit our website for further guidance on [abstract submission](#) and [suggested topics](#) on obstetrics and gynecology to aid you in submitting your abstract. We look forward to receiving your submissions.

29th World Congress On-Demand

[Become a member](#) to access all of the content from the second day of our [29th World Congress on Ultrasound in Obstetrics and Gynecology in Berlin](#). Starting from June, members can access the various masterclasses and workshops on topics such as:

- [Using the IOTA ADNEX model to classify all ovarian masses](#)
- [How to evaluate a patient presenting with infertility with a single scan](#)
- [Situs anomalies and heterotaxy in the fetus](#)

[Watch lectures now](#)

Continuing Medical Education (CME)

ISUOG members can now earn CME points and obtain EACCME certification on [our new structured learning platform](#), which offers content in a wide variety of formats ranging from videos to scientific articles and guidelines.

As an ISUOG member, you can complete the most popular activities on our new CME platform, below:

- [Fetal Neurosonography: Tips and Tricks](#)
- [Effective Screening for Congenital Heart Disease](#)
- [Tetralogy of Fallot: From Anatomy to Ultrasound](#)

[Become an ISUOG member](#) today and access our CME platform.
