Welcome to Vienna

We are extremely proud to welcome you to Vienna for the 27th World Congress on Ultrasound in Obstetrics and Gynecology.

With its imperial palaces, renowned musical heritage and masterpiece-filled museums, Vienna is a wonderful historic destination. Moreover, it's also at the cutting edge of design, architecture and contemporary art, and with Austria's well established connection to ultrasound it makes Vienna the perfect location for our 27th World Congress.

The World Congress is an unmissable opportunity to submit cutting edge research and to present to one of the largest audiences in the field. These clinical and research updates, enriched with expert overviews, are an essential feature of the event and ensures that the Congress fulfils all our attendees educational and professional needs.

We look forward to welcoming you to Vienna and hope you thoroughly enjoy participating in this fantastic week of discovery, both scientifically and culturally!

Session types explained

Accepted abstracts may be presented in the following ways, you can indicate if you do not wish to present your abstract orally:

Oral communication (OC)

Presented within the main scientific sessions, OC abstract presenters are allocated 5 minutes for their presentation (of no more than 5 slides), plus 3 minutes for discussion.

Short oral presentation (OP)

OP abstract presenters are allocated 2 minutes to summarise their poster (1 slide only), plus 2 minutes for discussion.

Poster discussions (P)

Poster discussions take place in the Hubs. These are intimate, flexible and friendly spaces designed to offer the author the opportunity to meet delegates interested in their research, discuss any comments and answer questions on their work.

Electronic posters (EP)

Abstracts accepted as view only posters are available for viewing throughout the Congress on the On Demand stations located at the ISUOG lounge.

All OC, OP, P & EP presentations are published in the abstract book and online.
