

This month, we're excited to bring you the following updates:

- [29th World Congress on Ultrasound in Obstetrics and Gynecology](#) news, such as CME points, [supplement your learning](#), live stream opportunities and an exciting social program
- New research in the [August issue of UOG](#), including a series of papers on fetal brain imaging and a [video abstract](#) on the effectiveness of tubal flushing using different contrast media
- What to expect from our November course on [Endometriosis and gynecologic oncology](#)
- Upcoming [ISUOG Basic Training courses](#), other [future ISUOG events](#) and [live stream opportunities](#)

Best wishes,
The ISUOG Team

Highlights from the August issue of the UOG Journal

The [August issue of *Ultrasound in Obstetrics & Gynecology*](#) includes a series of papers on different aspects of fetal brain imaging, including studies on neurodevelopmental outcome and the role of magnetic resonance imaging in fetal isolated mild ventriculomegaly, and the sonographic assessment of the Sylvian fissures and their development in fetuses with cortical maldevelopment. Articles on other topics include a systematic review, with an [accompanying video abstract](#), on the effectiveness on fertility outcome of tubal flushing using different contrast media, and a study on core principles for parental engagement in the perinatal mortality review process.

[UOG Highlights](#)

3 days to go until the #ISUOG2019 early bird registration deadline

29th World Congress on Ultrasound in Obstetrics and Gynecology
12-16 October 2019
Berlin, Germany

Our early bird registration deadline is rapidly approaching - if you haven't already done so, [register](#) before midnight on 12 August 2019 for the lowest available fees to #ISUOG2019! By attending our World Congress in Berlin, you will be eligible to earn up to 36 CME/CPD points. Check out our [keynote speakers](#), including Prof. Kypros Nicolaides, Prof. Rabih Chaoui and Prof. Asma Khalil, and browse our [scientific program](#). Can't make it to Berlin? You can [live stream](#) our [certificate of fetal brain imaging](#) and the pre-Congress course ['Advances in prenatal diagnosis, preeclampsia prediction and future technologies'](#) from the comfort of your own home.

Last but not least, we're excited to share with you our [social program](#) for this year's World Congress. We look forward to greeting you at the Opening ceremony, dancing with you at the industrial chic Congress Party, and bidding you auf Wiedersehen at our leaving drinks. Furthermore, you can also take part in morning yoga sessions and an afternoon run. See you then!

[Register now](#)

Endometriosis and gynecologic oncology: do they have something in common?

This [interactive ISUOG education course](#) will look at clinical case videos and give delegates an opportunity to share their knowledge with experienced ultrasound examiners. Attend this course to receive an update on the scientific literature dealing with endometriosis, cancer in endometriosis and the appearance of deep endometriosis from two of the most [renowned experts](#) in this field: Dr Antonia Testa and Prof. Lil Valentin. [Register your interest](#) now, and we'll inform you when registration opens for this course!

Supplement your learning for the 2019 ISUOG World Congress

Supplement your learning for #ISUOG2019 is now live! Make the most of your learning experience at Congress with our [supplement your learning](#) page, which provides specially tailored learning pathways on this year's featured topics:

- First Trimester Ultrasound in the Era of NIPT
- Classifying and Managing Ovarian Masses
- Complication in Early Pregnancy
- Optimal use of Ultrasound to Obtain the Best Obstetrical Outcome

These learning pathways feature key content such as [video lectures](#), [ISUOG guidelines](#), [UOG articles](#), [VISUOG](#) chapters and [CME](#) activities, which have been specially selected for you by the ISUOG Education team. [Join ISUOG online](#) to access all of our resources.

[Supplement your learning](#)

Upcoming Basic Training courses

ISUOG [Basic Training courses](#) provide delegates with a unique opportunity to gain an in-depth understanding of the basics of obstetric and gynecological ultrasound. ISUOG Basic Training is continuing to work towards its mission of expanding global access through the presentation of its curriculum in different languages.

We are making great strides towards this goal, by hosting Basic training courses in [Chinese](#), [Russian](#), [English](#) and [Spanish](#) in the coming months. We hope to see you at one of these [upcoming Basic Training courses!](#) You can also find out more about [joining a Basic Training course remotely](#), and [running a Basic Training program](#) at your own institution. Remember to also check out the ISUOG2019 [ISUOG Basic Training Program!](#)
