April 2019

## A message from ISUOG Scientific Committee Chair Prof. Laurent Salomon on the 29th World Congress on Ultrasound in Obstetrics and Gynecology

12-16 October 2019, Berlin, Germany

There is no city quite like Berlin to host our [World Congress](#) and to celebrate the extraordinary diversity and unity of ISUOG. The Scientific Committee and the Board of ISUOG have worked alongside Congress chairs Kurt Hecher and Rabih Chaoui to create the most exciting [scientific program](#) to welcome you for our 29th World Congress, where we look forward to hosting you. Our Congress will be the perfect mix of large sessions with top level experts sharing their experience, and small working hubs which facilitate direct exchange between attendees.

Experts working at the cutting edge of their field will be able to share the very latest, and even unpublished, data; while those who focus on optimizing clinical practice based on the latest techniques and evidence will be able to receive practical information on how to best scan and treat patients on a daily basis. Now it is time for you to [register](#) and come enjoy the magic of ISUOG in the [ultrant city of Berlin](#). Remember, there are only [4 days left to submit your abstract](#) for consideration in the ISUOG 2019 scientific program - so be sure to share your contributions with us before the deadline at midnight UK time on **Monday 8th April**. To take a look at what to expect from the ISUOG World Congress, you can now watch [presentations from our 2018 World Congress in Singapore](#). See you in Berlin, Germany – 12-16th of October 2019.  
Laurent J Salomon  
ISUOG Board Member  
Chair of the ISUOG Scientific Committee and Chair of the ISUOG Clinical Standards Committee.

### Highlights from the April issue of the UOG Journal

The [April issue of Ultrasound in Obstetrics & Gynecology](#) includes a [series of papers](#) on cerebroplacental ratio values and their use in the management of labor. Articles on other topics include a [Randomized Controlled Trial](#) on the association between Cesarean hysterotomy level and large uterine scars, a [Systematic Review](#) on delivery or expectant management for prevention of adverse maternal and neonatal outcomes in hypertensive disorders of pregnancy, and [studies](#) on the contribution of maternal factors and growth velocity in predicting a small-for-gestational-age neonate and whether phenotype of a previous preterm birth should influence the management of a subsequent pregnancy in women with a short cervix.

You can also check out our [UOG videos](#), which include a [new UOG video abstract](#) on the role of prenatal brain imaging in predicting postnatal hydrocephalus treatment in fetuses with prenatal repair of NTD.

Download the free [UOG App](#) to read Ultrasound in Obstetrics and Gynecology on the go using your smartphone or tablet.

[Join ISUOG](#) as a Journal member for exclusive access to all content from the White Journal!

UOG Highlights

### ISUOG 2018 lectures open to all members On Demand

Lectures from ISUOG's 28th World Congress on Ultrasound in Obstetrics and Gynecology are now available to all ISUOG members! [Join ISUOG online](#) for access to these ISUOG membership benefits and [start watching](#) these state-of-the-art presentations from leading experts, such as:

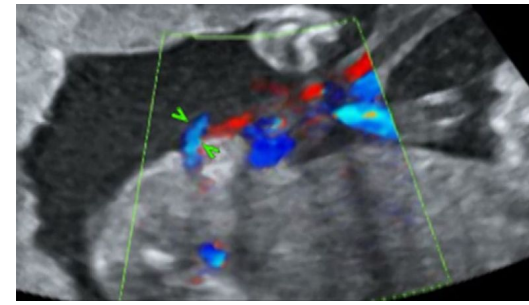

- [Cardiac ultrasound: the heart of the matter](#) - Prof. Rabih Chaoui
- [Modern management of twin pregnancy](#) - Prof. Kurt Hecher
- [Imaging metastatic disease to and from the ovary](#) - Prof. Daniela Fischerova
- [Pelvic floor ultrasound: diagnosis and management](#) - Prof. Hans Peter Dietz
- [Fetal brain: optimal imaging every time](#) - Prof. Dario Paladini

Presentations are divided into Masterclasses, Oral Presentations, Oral Communications, Plenaries and Workshops. Our [On Demand platform](#) is an exclusive ISUOG membership benefit - so [join us](#) for access.

ISUOG On Demand

### ISUOG Fetal Anomalies 2019

3-5 May 2019, Athens, Greece and live-streamed globally

There is still time to [register](#) to join us onsite in Athens or via live stream for this advanced overview on the diagnosis and management of [fetal anomalies](#), where you will:

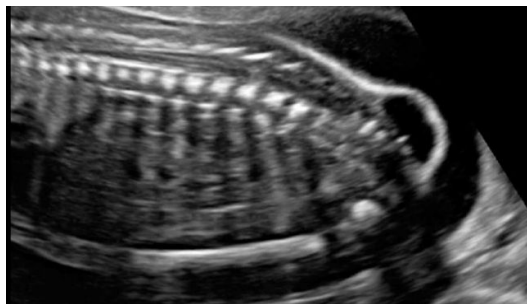

- improve your knowledge on fetal anomaly detection by ultrasound
- understand the principles of neurosonography and cardiac anomaly screening
- understand the diagnostic capabilities of the 4th chambers view

You'll be hearing from [world renowned speakers](#) such as Rabih Chaoui, Asma Khalil, Ann Tabor, and Nikos Vrachnis. For full details of the topics covered at this education course, check out the course [program](#). Recordings will be available to all course delegates for 1 month after the course. [Supplement your learning](#) for this course with our educational resources.

Register now

### First trimester

4-5 May 2019, live streamed globally

Live streaming our [First trimester](#) course gives you the opportunity to take a detailed look at the guidelines and clinical practice for the sonographic assessment of the normal fetus at 11-14 weeks, at a time and location that suits you. [Register now](#) to improve your understanding of first trimester fetal malformation, receive deep insights into aneuploidy screening, and learn about screening for adverse pregnancy outcome.

Check out the [course program](#) for more information. To make the most out of this learning opportunity, [supplement your learning](#) with related ISUOG educational resources.

Key speakers include [international experts](#) such as Simon Meagher, Jon Hyett, Lisa Hui, Fred Ushakov and more.

Course recordings will be available to all course delegates for 1 month after the course

Register now

### Join ISUOG for reduced fees to the following events

[Basic Training: A Practical Approach to the Ob/Gyn Ultrasound Examination](#) 11 April 2019, São Paulo, Brazil - [register now](#)

[15th ISUOG International Symposium](#) 12-14 April 2019, São Paulo, Brazil - [register now](#)

[ISUOG Fetal Anomalies 2019](#) 3-5 May, Athens, Greece, and live streamed globally - [register now](#)

[First Trimester](#) 4-5 May, live streamed globally - [register now](#)

[ISUOG Basic Training: the essentials of the obstetric and gynecological ultrasound](#) (delivered in Spanish) 31 May-3 June, Medellin, Colombia

[Urogynecology and pelvic floor ultrasound](#) 6 July 2019, London, UK, and live streamed globally - [register now](#)

[29th World Congress on Ultrasound in Obstetrics and Gynecology](#) 12-16 October 2019 in Berlin, Germany - [register now](#)

[Pre-Congress courses on 12 October 2019 - available to live stream](#)

[Fetal anomalies: heart and central nervous system](#)  
[Ultrasound working together with other technologies for the best perinatal outcomes](#) (in partnership with SMFM)

ISUOG Events Calendar

### Updates from ISUOG Basic Training

Go behind the scenes of ISUOG Basic training with [Issue 4 of the Basic Training newsletter](#) 'Beaming 3D'. In this issue, you can find out about current and upcoming [Basic Training projects](#). Basic Training from the perspective of a trainee, and the experience of hosting a satellite. There's still time to register for our next course [Basic Training: A Practical Approach to the Ob/Gyn Ultrasound Examination](#) on 11 April. This course is taking place before the [ISUOG International Symposium](#) in São Paulo, Brazil. Attend [onsite](#) or via live stream ([individually](#) or via [satellite](#)).

We are also pleased to announce our first Basic Training course in Colombia. [ISUOG Basic Training: the essentials of the obstetric and gynecological ultrasound](#) on 31 May-3 June 2019. Check out the [theoretical program \(days 12\)](#) and [practical program \(days 34\)](#) now, and [register now](#) for onsite attendance. This course will be delivered in Spanish. Bring this course to you by [hosting a satellite](#) or via individual [live stream](#).

### Happy World Health Day from ISUOG

7 April 2019

ISUOG's vision is that every woman in the world has access to ultrasound, that every scan provider is competent and that the diagnosis of obstetric and gynecologic conditions is effective so that women's health outcomes improve all around the world. We do this through dissemination our [online educational materials](#), research from UOG, free-access [guidelines](#) (available in [17 different languages](#)) and other [clinical resources](#), [Basic Training program](#), [free trainee membership](#), and sharing knowledge at our [events](#) and [approved courses](#). Furthermore, ISUOG's [Outreach program](#) provides access to hands-on training in ultrasound, supported by essential theoretical knowledge, in underserved regions of the world. You can support outreach by [donating](#) today, and find out how to get involved [here](#).
