

Submit an abstract or register now for our World Congress in Singapore!

Registration is now open for the 28th World Congress on Ultrasound in Obstetrics and Gynecology in Singapore! The ISUOG Congress is an unmissable event for clinicians practising in ultrasound and gynecology, and this year we are heading to the dynamic city of Singapore. There are reduced rates for our members, so become a member now, and register before 20 August 2018 for early bird fees.

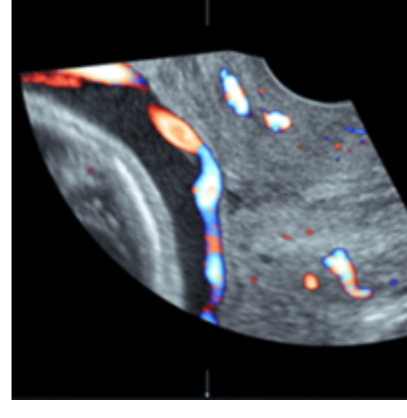

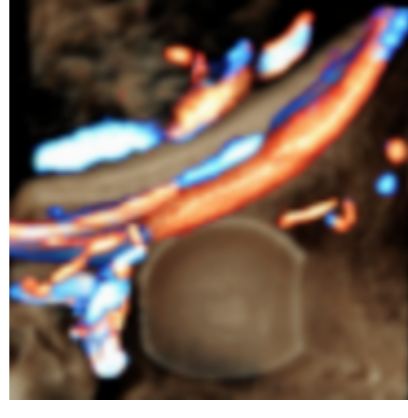

Furthermore, ISUOG is providing up to 6 travel grants for young researchers from underserved regions. Please see our website for more details.

Check out our provisional scientific program and pre-Congress courses, and see who is on our faculty so far.

If you are interested in submitting an abstract for consideration in the scientific programme, you can find out more about topics and submission rules on our website.

UOG February Issue

This month's issue of Ultrasound in Obstetrics & Gynecology focuses on abnormally adherent and invasive placenta. This issue contains: an opinion piece on terminology, a systematic review on its prediction using first-trimester ultrasound signs, an original article on prediction of surgical outcome in diagnosed women, and a systematic review on expectant management of women diagnosed with Cesarean scar pregnancy. Coming soon... virtual issues on abnormally adherent and invasive placenta, NIPT and preterm birth.

Other articles in this issue include: a study on center-specific variation in measurement of lung-area-to-head-circumference ratio for prognosis of congenital diaphragmatic hernia, and an agreement and reliability study on International Endometrial Tumor Analysis (IETA) terminology in women with postmenopausal bleeding and sonographic endometrial thickness ≥ 4.5 mm. Become a Journal member today to gain access to all issues of UOG, the leading peer-reviewed journal on imaging within the field of obstetrics and gynecology.

UOG Highlights

Pre-Congress Courses

This month we attended the Society For Maternal Fetal Medicine's 38th Annual Pregnancy Meeting in Dallas, Texas, where there was a full house at the joint ISUOG/SMFM course 'Fetal Echo with First Trimester Anatomic Survey'. You can register now for our pre-Congress course in partnership with SMFM 'From genetics to obstetric management: essential genetics in practice'.

Our other Pre-Congress courses include:

- Basic Training Course: A Practical Approach to the Ob/Gyn Ultrasound Examination
Ultrasound for diagnosis and presurgical staging of deep endometriosis (DIE)

Pre-Congress Courses

Future Events

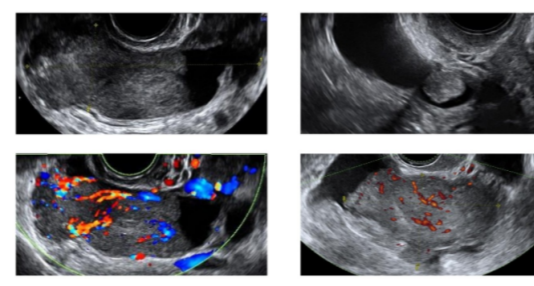

Become an ISUOG member for reduced fees to our upcoming events, such as:

- Basic Training Course on Gynecology, Rotterdam 16-17 February 2018
14th ISUOG International Symposium €250 non member / €200 ISUOG member 20-22 April 2018 Athens, Greece
ISUOG Fetal Anomalies 2018 21 April 2018 Live stream from the International Symposium
Managing Incidental Ultrasound Findings in Gynecology 01 June 2018 London, UK
28th ISUOG World Congress 20-22 October 2018 Singapore
For more events, check out our calendar

ISUOG Upcoming Events

VISUOG

ISUOG's online visual encyclopedia has recently been re-launched with our new website! VISUOG is an essential tool for medical professionals who want to stay informed on accurate sonographic diagnoses and the clinical use of ultrasound in obstetrics and gynecology, through detailed images and accompanying text. Become a member today to access VISUOG and other online educational resources, such as:

- 1400+ World Congress online presentations on our On Demand platform
250+ online lectures categorised into 35 learning modules
Earn CME credit from anywhere in the world, via ISUOG's online CME platform

ISUOG Online Education

New CME activities available now

This month, we have new CME activities available to ISUOG members: a workshop on abnormally invasive placenta, an activity focused on ultrasound and MRI of brain malformations and acquired pathology, and a journal club activity on the article 'Misoprostol treatment vs expectant management in early non-viable pregnancy in women with vaginal bleeding: a pragmatic randomized controlled trial'. More activities will be coming soon.

All of ISUOG's CME activities are based on our education courses, guidelines, and UOG journal articles. Join online today to access the education activities, complete the learning module and post-test, and gain CME points!

More about our CME

ISUOG's Safety Committee responds to JAMA Pediatrics paper in a new safety statement and finds no evidence of association between prenatal ultrasound and autism spectrum disorder

A new statement by the ISUOG Safety Committee was published on 12 February 2018 as a response to the JAMA Pediatrics paper on the association of prenatal ultrasonography and autism spectrum disorder (ASD). The Committee could not support the article's conclusions and it reiterates ISUOG's previous Safety Statement that concluded there is no scientifically proven association between ultrasound and ASD.

New ISUOG Ambassadors!

ISUOG is proud to announce that we have three new additions to our ambassador program, which plays an essential role in spreading our mission and vision to under represented regions of the world. Our new ambassadors are:

- Dr Georges Haddad - Ambassador to Algeria and Francophone North Africa
Dr Simon Meagher - Ambassador to Asia and Pacific Region
Dr Suresh Seshadri - Ambassador to India and South Asia

"It is an honour to be appointed as ambassador to ISUOG for the Asia Pacific region and I am committed to supporting and enhancing ISUOG's membership across the region. I will continue with my commitment to education in the Asia Pacific via conducting regular practical interactive symposia both locally and overseas."

Dr Simon Meagher - ISUOG's new Ambassador to Asia and Pacific Region
