This month we are celebrating the phenomenal success of UOG, which has achieved an impact factor of 5.654 and more than 2.0 million downloads, and we are raising the bar in our exclusive Ultrasound and Gynaecology.

### Impact Factor

The news is further strengthened by a recent comprehensive evaluation of UOG's ongoing commitment to providing reviewers with timely feedback on their work, as well as improving the quality of communications between editors and reviewers. Registered reviewers have completed 75% of their peer review assignments from April to October, boosting UOG's reputation for excellence in the field.

### Learn More

You can update your details and learn more about UOG's editorial policies, new content, upcoming events, and other exclusive offers at our website. Find more information on this course over here.

### Become an ISUOG Member

To access this ISUOG clinical resource along with other exceptional membership benefits, please review our updated Privacy Policy and Join online today.

### Relaunch of our Fetal Biometry Calculators

Our two new fetal biometry calculators have been revamped and are now available. All calculators are easy to use and provide the latest fetal biometry formulas. To access these new calculators, all you need is your MyISUOG membership. For the advantage of members and non-members to share the joy of this experience, we are now offering our ISUOG calculators for a 20% reduced early bird rate. This month highlights & video from genetics to obstetrics.

### New Articles

#### Advanced Fetal Neurosonography

Coming up in the next issue of UOG are two exclusive articles on the heart of the matter. One explores the mechanisms of ultrasound for diagnosis and management, while the other delves into the practice-changing research of exceptional impact in obstetrics and gynecology. The Basic Training Course: A Practical Approach to the Ob/Gyn Ultrasound Examination is now ranked the third journal in obstetrics and gynecology and enjoys online access to original research.

### Advanced Fetal Neurosonography

Watch Prof. Stuart Campbell discuss the latest advancements in the field, and stay up-to-date on this current topic. Prof. Stuart Campbell, a leading expert in obstetrics and gynecology, will be sharing his insights on the future of ultrasound in obstetric and gynecologic practice.

### Online Masterclasses

Our online masterclasses are easy to access and available at no cost or at a highly reduced early bird rate. Hosting a satellite in Chennai and Singapore will be available to trainee delegates who attend a satellite. Our two upcoming Basic Training courses in July will be easy to access via live stream via our website.

### Pre Congress Courses
