November 2018

Highlights from the 28th World Congress on Ultrasound in Obstetrics and Gynecology in Singapore

ISUOG's World Congress in Singapore was a phenomenal success and we would like to thank our partner society ASUM, endorsing bodies, and all participants. 2062 delegates from 86 different countries attended #ISUOG2018 on site and over 170 via live stream. [Check out some photos from #ISUOG2018.](#)

Congress delegates will shortly have access to presentations from the main program at #ISUOG2018. All other ISUOG members will have access in 6 months - why not [join us](#) as an ISUOG member?

We are already looking forward to seeing you in Berlin for the [29th World Congress on Ultrasound in Obstetrics and Gynecology!](#) [Chairs](#) are Prof. Rabih Chaoui and Prof. Kurt Hecher. Registration and abstract submission will open in January 2019 and [Travel Grants](#) are available for abstract submitters. Please visit our [World Congress 2019 webpage](#) and follow us on [Facebook](#), [Twitter](#) and [Instagram](#) for updates on #ISUOG2019.

See you in Berlin!

World Congress 2019

Upcoming ISUOG Education Courses 2018-2019

Also available to live stream

There's still time to register for '[Advanced Fetal Neurosonography: when do I need to refer for fetal MRI?](#)', which takes place on 7-8 December 2018 in London. Can't attend onsite? This course is available to attend via live-stream. [Register now.](#)

You can also join us in London or via live stream for '[Multiple Pregnancy](#)' on 9-10 February 2019. Check out the [provisional program](#), and [register now.](#)

The Society for Maternal-Fetal Medicine (SMFM) will be hosting a joint course with ISUOG on '[Placental Insufficiency - From causes to consequences, from prediction to prevention](#)' on 12 February 2019 at the [39th Annual Pregnancy meeting](#) in Las Vegas and via live stream. [Find out the details of the course](#) and [register your interest](#) for live streaming.

ISUOG Education courses

UOG November issue highlights

The [November issue](#) of *Ultrasound in Obstetrics & Gynecology* includes a Systematic Review on [outcome reporting in studies evaluating treatments for twin-twin transfusion syndrome](#), and Original Articles on the [association between birth-weight discordance and neonatal morbidity in twin pregnancy](#), [longitudinal change of sFtT-1/PIGF ratio in singleton pregnancy with early-onset fetal growth restriction](#), and the ['sliding sign' of the uterus as a simple sonographic marker for the prediction of intra-abdominal adhesions in women undergoing repeat Cesarean section](#).

Also available now online is a new [ISUOG Guideline](#) on the role of ultrasound in screening for and follow-up of pre-eclampsia. [Join ISUOG](#) as a [Journal member](#) for 12 months of exclusive access to UOG!

UOG Highlights

18 new VISUOG chapters

[VISUOG](#), the visual encyclopedia, is expanding! 18 new chapters on a variety of obstetric and gynecological conditions have been published in the last two months, and new sections have been added on anomalies of the spine, abdomen, face, placenta, and conditions in early pregnancy.

[Explore this new content](#) and find out how you can become involved by contributing images or chapters to become a published author.

VISUOG is exclusively available to ISUOG members. [Join ISUOG today](#), for exclusive access ISUOG membership benefits such as VISUOG!

ISUOG's Basic Training Program

ISUOG's [Basic Training](#) team has been very active over these last few months with the biggest ever course taking place in Chennai (India) in September delivering the full theoretical programme and more than 177 delegates attending onsite and over 300 delegates via live stream.

In Singapore, 82 delegates attended the theoretical course on site, over 120 live streamed, and 32 joined for the simulation session.

Check out this new ISUOG Basic Training task force Editorial in UOG, "[Use of ultrasound simulators for assessment of trainee competence: trendy toys or valuable instruments?](#)" by Gihad Chalouhi and Martin Tolsgaard.

15th ISUOG International Symposium

Join us on the 12-14 April 2019 in São Paulo, Brazil for the [15th ISUOG International Symposium](#), which is brought to you in partnership with the Brazilian Society of Ultrasound (SBUS). After the great success of the [14th ISUOG International Symposium](#) in Athens, we are thrilled to be bringing this event to Brazil. You can find out more [on our website](#).

With ISUOG membership, you'll receive discounted rates to all ISUOG events - you can [join online](#) now. You can also check out our [events calendar](#) for other events that may be of interest to you.

International Symposium

ISUOG Outreach returns to Sudan

This week [ISUOG Outreach](#) returns to Sudan to complete the final trip of Phase I. The program, led by ISUOG Ambassador Hisham Mirghani will take place from 9-15 November and will continue the work already started in teaching potential ultrasound trainers in North Kordofan.

Learn all about last year's achievement [on our website](#), and [donate](#) to support the next phase of the program.

Follow the [ISUOG Outreach blog](#) to stay tuned!

ISUOG Outreach

Testimonial from one of our 2018 Travel Grant winners Nouran Adel Elbarbary, Alexandria, Egypt

"For years now, ISUOG has been an essential part of my ultrasound learning, training and teaching. With the travel grant program, comes further support for research in underserved countries. I had the privilege of joining Singapore 2018 congress and the whole experience was extraordinary!

You get the chance to present your work, connect with like minded professionals and receive feedback from experts. The scientific program is very comprehensive and versatile, covering every aspect from basic to advanced supported with many workshops, special interest group meetings and discussions with distinguished ISUOG faculty... Personally I admire the whole experience. I really appreciate the hard work of all ISUOG faculty, staff and trainees to get this congress to its final shape each and every year. I'd like to thank the Education and Scientific committee for the chance they offer young researchers to develop their work and I strongly advise all eligible candidates to share!"
