

Online Learning Module Index

Principles and basic topics

- 1 [Objectives of the ultrasound examination](#)
- 2 [Principles of ultrasound imaging](#)
- 3 [Setting up the machine](#)
- 4 [Preparing the patient](#)
- 5 [Other imaging and diagnostic modalities](#)
- 6 [Screening tests and diagnostic tests](#)

Gynecology

- 7 [Normal sonographic pelvic anatomy](#)
- 8 [Congenital uterine anomalies](#)
- 9 [Benign uterine anomalies](#)
- 10 [Malignant uterine anomalies](#)
- 11 [Benign adnexal anomalies](#)
- 12 [Malignant adnexal anomalies](#)
- 13 [The pelvic floor](#)
- 14 [Reproductive medicine](#)

Early pregnancy and first trimester

- 15 [5 to 10 weeks: normal sonographic morphology](#)
- 16 [5 to 10 weeks: abnormal sonographic morphology](#)
- 17 [11 to 14 weeks: normal sonographic morphology](#)
- 18 [11 to 14 weeks: abnormal sonographic morphology](#)
- 19 [Multiple pregnancy in the first trimester](#)

Second and third trimesters

- 20 [Basic concepts related to fetal anomaly screening](#)
- 21 [Fetal biometry and other measurements](#)
- 22 [Normal second trimester ultrasound morphology excluding the heart](#)
- 23 [Normal second trimester ultrasound morphology: the heart](#)
- 24 [Brain and CNS: abnormal sonographic morphology](#)
- 25 [Face, neck and thorax: abnormal sonographic morphology](#)
- 26 [Heart: abnormal sonographic morphology](#)
- 27 [Abdomen: abnormal sonographic morphology](#)
- 28 [Skeletal: abnormal sonographic morphology](#)
- 29 [Fetal well being assessment: biometry](#)
- 30 [Fetal well being assessment: Doppler studies](#)
- 31 [Amniotic fluid](#)
- 32 [The placenta](#)
- 33 [Multiple pregnancy in the second and third trimesters](#)
- 34 [Preterm birth and cervical assessment](#)
- 35 [Ultrasound in the labour ward](#)

Module 1: Objectives of the ultrasound examination			
ISUOG 2013 guidelines for examining the fetal heart	2013	Julene Carvalho	26:50
Module 2: Principles of ultrasound imaging			
3D basics and volume acquisition, optimized insonation; shadowing and artefacts 1	2015	Boris Tutschek	21:44
Live scan demonstration – basic volume acquisition (I)	2015	Hans Peter Dietz	24:02
Orthogonal anatomical planes	2015	Liat Gindes	1:01:48
Welcome and introduction: Why 3D? When 3D, when not?	2015	Boris Tutschek	03:16
Module 3: Setting up the machine			
Fetal echocardiography: from the buttons to the image	2009	Rabih Chaoui	56:39
Module 4: Preparing the patient			
Compassion, breaking bad news and the impact of early pregnancy loss on women – bridging the gap between reality and expectation	2014	Maria Jalmbrant	30:28
What I have learnt from speaking to women who have had an ectopic pregnancy or miscarriage: what should healthcare professionals be aware of?	2014	Alex Peace-Gadsby	43:02
Module 5: Other imaging & diagnostic modalities			
Automatic quantitative MRI texture analysis in small-for-gestational-age fetuses. Discriminates abnormal neonatal neurobehavior	2014	Magdalena Sanz-Cortes	29:36
Fetal MRI beyond T2 weighted images	2014	Daniela Prayer	26:31
Fetal MRI when, why and how	2016	Daniela Prayer	41:41
Is fetal MRI indicated in renal congenital anomalies?	2014	Daniela Prayer	20:36
MRI of the fetal abdomen	2014	Daniela Prayer	21:57
Ultrasound & MRI. Do we really need T2 weighted images in this patient?	2014	Gianluigi Pilu	40:52
Using MRI to evaluate "difficult to classify" ovarian masses and development and validation of a MR scoring system for adnexal masses	2014	Andrea Rockall	35:39
Module 6: Screening tests and diagnostic tests			
Antenatal and neonatal screening – what is on offer?	2015	Andrew Rostron	45:06

cfDNA consensus statement from ISUOG	2017	Laurent Salomon	36:13
Current issues and pitfalls with NIPT	2017	Laurent Salomon	28:35
Cytogenetic and molecular testing in prenatal diagnosis	2015	Diana Wellesley	34:02
First trimester screening for aneuploidy - which test when?	2017	Fabricio da Silva Costa	26:37
Invasive techniques in prenatal diagnosis and prenatal therapy	2015	Sarah Bower	47:53
NIPT	2015	Melissa Hill	33:17
Ovarian and endometrial cancer screening - latest insights from the UKCTOCS trial	2014	Stuart Campbell	47:09
Pre-eclampsia screening after the ASPRE trial	2017	Fabricio Da Silva Costa	23:20
Preimplantation genetic diagnosis	2015	Alison Lashwood	34:58
Role of first trimester cardiac markers in the era of NIPT	2017	Jon Hyett	24:47
Screening for major pregnancy syndromes: GDM, FGR and preterm delivery	2017	Jon Hyett	32:53
Ultrasound screening for congenital anomalies	2015	Baskaran Thilaganathan	47:05
Module 7: Normal sonographic and pelvic anatomy			
Examining the uterus, ovaries and adnexae: normal findings	2017	Douglas Dumbrill	28:41
The basics: an introduction to pelvic floor ultrasound	2015	Hans Peter Dietz	51:35
Module 8: Congenital uterine anomalies			
Module 9: Benign uterine anomalies			
Assessment of tubal patency and endometrial pathology – fluid and foam	2014	Thierry van den Bosch	33:15
Classifying myometrial pathology: fibroids and adenomyosis	2016	Thierry van den Bosch	26:06
Diagnosing fibroids, sarcoma and adenomyosis with ultrasound	2011	Lil Valentin	27:28
Etiology and epidemiology of endometriosis	2016	Christian Becker	29:56
Evaluating postmenopausal bleeding – from endometrial thickness to gel	2014	Elisabeth Epstein	30:40

Managing women with endometriosis and pain: Is ultrasound helpful when choosing between different treatment options?	2016	Tom Holland	05:21
Technique of ultrasound examination in suspected endometriosis	2016	Lil Valentin	25:42
The IETA trial - standardizing terms to describe endometrial pathology	2012	Thierry van den Bosch	28:04
Ultrasound diagnosis of adenomyosis: MUSA update	2017	Wellington Martins	29:11
Understanding the endometrial response to hormone therapy using ultrasound	2011	Steven Goldstein	28:32
Use of 3D ultrasound to classify uterine anomalies	2017	Wellington Martins	33:53
Using ultrasound to assess endometriosis and different types of endometrioma	2011	Caroline Van Holsbeke	20:11
What impact do fibroids have on IVF outcome?	2014	Lukasz Polanski	34:24
What is the clinical importance of adenomyosis in women with and without endometriosis? Is it clinically important to diagnose adenomyosis?	2016	Joel Naftalin	03:15
Module 10: Malignant uterine anomalies			
Assessment of women after surgery	2016	Tom Holland	06:40
Cervical cancer: Assessment of early stage cervical cancer using ultrasound and MRI	2014	Elisabeth Epstein	35:14
Diagnosing fibroids, sarcoma and adenomyosis with ultrasound	2011	Lil Valentin	27:28
Evaluating cervical and myometrial extension in women with endometrial cancer	2014	Elisabeth Epstein	31:10
Evaluating myometrial invasion: do pathology and ultrasound look at the same thing?	2012	Elisabeth Epstein	14:00
Examples of using ultrasound for identifying metastatic disease in the pelvis and abdomen	2014	Antonia Testa	05:48
Ovarian and endometrial cancer screening - latest insights from the UKCTOCS trial	2014	Stuart Campbell	47:09
Video presentation: examining the abdomen and pelvis for metastases	2012	Daniela Fischerova	32:51
Module 11: Benign adnexal anomalies			
A recap of IOTA terminology, simple rules and descriptors	2014	Antonia Testa	10:30

A Systematic review and Meta-analysis of tests used to predict malignancy in ovarian masses	2014	Ahmad Sayasneh	35:26
Abdominal wall and other unusual sites	2016	Stefano Guerriero	13:44
Adhesions and tubal disease	2014	Valentine Akande	34:54
Adnexal cysts that cause acute pain in the pelvis	2014	Tom Bourne	41:34
Assessment of tubal patency and endometrial pathology – fluid and foam	2014	Thierry van den Bosch	33:15
Automated ovarian mass characterization –is this the future?	2014	Shan Khazendar	22:02
Discriminating between ovarian cysts, tubal pathology and peritoneal inclusion cysts	2011	Dirk Timmerman	29:59
IDEA consensus for the classification of endometriosis	2017	George Condous	40:24
IOTA apps – characterizing examples of ovarian pathology	2014	Dirk Timmerman	24:10
Ovarian endometriomas	2016	Lil Valentin	10:51
Single measurements of tumor markers – what role do they play in the characterization of an ovarian mass: CA 125, HE4 and ROMA	2014	Dirk Timmerman	26:30
Terminology and using Simple Ultrasound Based rules to classify Ovarian Pathology	2014	Dirk Timmerman	45:34
Ultrasound based endometriosis staging system (UBESS) to predict complexity of laparoscopic surgery	2017	George Condous	19:12
Ultrasound features of solid and “rare” subtypes of ovarian tumors	2014	Antonia Testa	28:45
Welcome and introduction to the IOTA (International Ovarian Tumor Analysis) trial	2014	Tom Bourne	24:39
When and how to use Tru-cut biopsies when evaluating solid tumors in the pelvis	2014	Daniela Fischerova	28:42
Where do we stand on diagnostic criteria for polycystic ovarian syndrome?	2014	Nick Raine-Fenning	31:59
Module 12: Malignant adnexal anomalies			
A recap of IOTA terminology, simple rules and descriptors	2014	Antonia Testa	10:30
A Systematic review and Meta-analysis of tests used to predict malignancy in ovarian masses	2014	Ahmad Sayasneh	35:26
Adnexal cysts that cause acute pain in the pelvis	2014	Tom Bourne	41:34
Assessing gynecological cancer patients for fertility sparing treatment - when does imaging help?	2014	Daniela Fischerova	39:20

Assessment of tubal patency and endometrial pathology – fluid and foam	2014	Thierry van den Bosch	33:15
Automated ovarian mass characterization –is this the future?	2014	Shan Khazendar	22:02
Discriminating between ovarian cysts, tubal pathology and peritoneal inclusion cysts.	2011	Dirk Timmerman	29:59
Evaluating metastases from ovarian cancer using ultrasound	2014	Daniela Fischerova	43:48
Examples of using ultrasound for identifying metastatic disease in the pelvis and abdomen	2014	Antonia Testa	05:48
How radical does surgery for ovarian cancer have to be?	2014	Christina Fotopoulou	38:27
IOTA apps – characterizing examples of ovarian pathology	2014	Dirk Timmerman	24:10
IOTA prediction models including multiclass models that predict borderline, invasive and metastatic cancer	2014	Dirk Timmerman	28:15
Ovarian and endometrial cancer screening - latest insights from the UKCTOCS trial	2014	Stuart Campbell	47:09
Pattern Recognition, Simple Descriptors and a three stage approach to evaluating ovarian pathology	2014	Tom Bourne	31:52
Simple ultrasound-based rules for the diagnosis of ovarian cancer	2017	Wellington Martins	29:24
Single measurements of tumor markers – what role do they play in the characterization of an ovarian mass: CA 125, HE4 and ROMA	2014	Dirk Timmerman	26:30
Terminology and using Simple Ultrasound Based rules to classify Ovarian Pathology	2014	Dirk Timmerman	45:34
Ultrasound features of solid and “rare” subtypes of ovarian tumors	2014	Antonia Testa	28:45
Welcome and introduction to the IOTA (International Ovarian Tumor Analysis) trial	2014	Tom Bourne	24:39
What will future treatments for ovarian cancer look like? How do we manage such a heterogeneous disease?	2014	Hani Gabra	50:52
When and how to use Tru-Cut biopsies when evaluating solid tumours in the pelvis	2014	Daniela Fischerova	28:42
Module 13: The pelvic floor			
Abdominal wall and other unusual sites	2016	Stefano Guerrerio	13:44
Live scan demonstration (I)	2015	Hans Peter Dietz	24:02
Pelvic floor trauma: the hidden cost of childbirth	2015	Hans Peter Dietz	24:02

Practical work: an introduction to 4D View	2016	Hans Peter Dietz	1:06:06
Slings and meshes: imaging of synthetic implants	2015	Hans Peter Dietz	47:00
The anterior and central compartments: urinary incontinence and prolapse	2015	Hans Peter Dietz	49:44
The basics: an introduction to pelvic floor ultrasound	2015	Hans Peter Dietz	5:35
The posterior compartment: obstructed defecation and fecal incontinence	2015	Hans Peter Dietz	48:32
Module 14: Reproductive medicine			
Assessing gynecological cancer patients for fertility sparing treatment - when does imaging help?	2014	Daniela Fischerova	39:20
Assessment of tubal patency and endometrial pathology – fluid and foam	2014	Thierry van den Bosch	33:15
Cycle monitoring and OHSS - what it means and when to intervene	2011	Nazar Amso	26:49
Follicle counting: tips and pitfalls	2017	Wellington Martins	45:49
Follicle tracking: time for automated measures?	2014	Nick Raine-Fenning	30:29
Implantation, decidualisation and how might we be able to influence it	2014	Jan Brosens	45:48
The British Fertility Society: where ultrasound fits in	2014	Valentine Akande	32:19
Ultrasound and tubal patency - has 3D and Gel made this the technique of choice?	2011	Steve Killick	27:22
Ultrasound guided procedures in IVF: Egg retrieval and Embryo Transfer	2014	Lukasz Polanski	33:21
What impact do fibroids have on IVF outcome?	2014	Dr Lukasz Polanski	34:34
What is the role of endometriosis in infertility?	2016	Christian Becker	23:51
Where do we stand on diagnostic criteria for polycystic ovarian syndrome?	2014	Nick Raine-Fenning	31:59
Why we have to be careful about dating pregnancies – further thoughts on the ovulation-implantation interval	2014	Christoph Lees	43:41
Module 15: 5 to 10 weeks: Normal sonographic morphology			
A critical appraisal of management strategies for PUL: the role of hCG, progesterone and rationalizing follow up	2011	Emma Kirk	17:59

Aneuploidy, NK cells, heparin, aspirin and antiphospholipid syndrome: making sense of recurrent miscarriage	2011	Siobhan Quenby	26:08
Caesarean section scar pregnancy: updates on diagnosis and management	2017	George Condous	34:46
Candidate biomarkers for ectopic pregnancy	2014	Andrew Horne	25:42
Compassion, breaking bad news and the impact of early pregnancy loss on women - bridging the gap between reality and expectation	2014	Maria Jalmbrant	30:28
Developing criteria to define miscarriage, new data from the Diagnosis of Miscarriage (DOM) trial: influence of gestation, time between scans and findings on repeat scans	2014	Tom Bourne	1:00:43
Diagnosis and management of non-tubal ectopic pregnancy	2011	Davor Jurkovic	27:25
Do events in early pregnancy impact on long-term pregnancy outcome?	2014	Maya Al-Memar	42:13
Early first trimester detection of fetal malformation 8-11 weeks	2017	Laurent Salomon	27:34
How can we counsel women who have a pregnancy of unknown viability (PUV)? Using simple scoring systems and prediction models to inform women of the risk of miscarriage	2014	Sharmistha Guha	28:34
How to classify pregnancies of unknown location (PUL) as low or high risk	2014	Shabnam Bobdiwala	31:15
Implantation, Ovulation and pregnancy outcome	2014	Christoph Lees	43:41
Introduction: congenital anomalies facts and figures	2015	Diana Wellesley	17:32
Management strategies for miscarriage - including vacuum aspiration. Is expectant management right for all women?	2014	Shyamaly Sur	27:30
Miscarriage diagnosis: are the new ultrasound cut-offs conservative enough?	2017	Wellington Martins	39:30
Non-tubal ectopic pregnancy: classification and diagnosis	2017	Jayshee Ramkrishna	32:25
Normal early embryonic development: singletons and twins	2014	Shyamaly Sur	19:56
Novel approaches to the treatment of ectopic pregnancy	2014	Andrew Horne	21:35
Pregnancy of unknown location: classification and rationalising follow up	2017	George Condous	27:19
Rendering "surface" views: 1. Early embryo; 2. Face; 3. Skeleton	2015	Katia Bilardo	45:00

Termination of pregnancy - procedures and essential diagnostic investigations	2015	Diana Wellesley	22:27
The features of non-tubal ectopic pregnancy including management strategies for caesarean scar pregnancies including case examples	2014	Catriona Stalder	23:35
The relative merits of medical and expectant management protocols for ectopic pregnancy	2011	Emma Kirk	17:25
The ultrasound diagnosis and characteristic features of tubal ectopic pregnancies	2013	Emma Kirk	20:09
Tubal ectopic pregnancies: what benchmark detection rate is acceptable?	2017	Wellington Martins	34:11
What I have learnt from speaking to women who have had an ectopic pregnancy or miscarriage: what should healthcare professionals be aware of?	2014	Alex Peace-Gadsby	43:02
Module 16: Abnormal sonographic morphology			
A critical appraisal of management strategies for PUL: the role of hCG, progesterone and rationalizing follow up	2011	Emma Kirk	17:59
Aneuploidy, NK cells, heparin, aspirin and antiphospholipid syndrome: making sense of recurrent miscarriage	2011	Siobhan Quenby	26:08
Caesarean section scar pregnancy: updates on diagnosis and management	2017	George Condous	34:46
Candidate biomarkers for ectopic pregnancy	2014	Andrew Horne	25:42
Compassion, breaking bad news and the impact of early pregnancy loss on women – bridging the gap between reality and expectation	2014	Maria Jalbrant	30:28
Developing criteria to define miscarriage, new data from the Diagnosis of Miscarriage (DOM) trial: influence of gestation, time between scans and findings on repeat scans	2014	Tom Bourne	1:00:43
Diagnosis and management of non-tubal ectopic pregnancy	2011	Davor Jurkovic	27:25
Do events in early pregnancy impact on long-term pregnancy outcome?	2014	Maya Al-Memar	42:13
Early first trimester detection of fetal malformation 8-11 weeks	2017	Laurent Salomon	27:34
How can we counsel women who have a pregnancy of unknown viability (PUV)? Using simple scoring systems and prediction models to inform women of the risk of miscarriage	2014	Sharmistha Guha	28:34
How to classify pregnancies of unknown location (PUL) as low or high risk	2014	Shabnam Bobdiwala	31:15

Management strategies for miscarriage – including vacuum aspiration. Is expectant management right for all women?	2014	Shyamaly Sur	27:30
Miscarriage diagnosis: are the new ultrasound cut-offs conservative enough?	2017	Wellington Martins	39:30
Non-tubal ectopic pregnancy: classification and diagnosis	2017	Jayshree Ramkrishna	32:25
Novel approaches to the treatment of ectopic pregnancy	2014	Andrew Horne	21:35
Pregnancy of unknown location: classification and rationalising follow up	2017	George Condous	27:19
Termination of pregnancy – procedures and essential diagnostic investigation	2015	Diana Wellesley	22:27
The features of non-tubal ectopic pregnancy including management strategies for caesarean scar pregnancies including case examples	2014	Catriona Stalder	23:35
The relative merits of medical and expectant management protocols for ectopic pregnancy	2011	Emma Kirk	17:25
The ultrasound diagnosis and characteristic features of tubal ectopic pregnancies	2014	Emma Kirk	20:09
Tubal ectopic pregnancies: what benchmark detection rate is acceptable?	2017	Wellington Martins	34:11
What I have learnt from speaking to women who have had an ectopic pregnancy or miscarriage: what should healthcare professionals be aware of?	2014	Alex Peace-Gadsby	43:02
Module 17: 11 to 14 weeks: Normal sonographic morphology			
A practical guide to the first trimester diagnosis of fetal brain malformation	2017	Simon Meagher	41:11
Anomalies of the fetal gastrointestinal tract 11-14 weeks: benefits and limitations	2017	Simon Meagher	25:34
Caesarean section scar pregnancy: updates on diagnosis and management	2017	George Condous	34:46
Cardiac anomalies associated with increased NT	2010	Lindsey Allan	25:16
Compassion, breaking bad news and the impact of early pregnancy loss on women – bridging the gap between reality and expectation	2014	Maria Jalbrant	30:28
Early first trimester detection of fetal malformation 8-11 weeks	2017	Laurent Salomon	27:34
First trimester diagnosis of fetal cardiac malformation: are we ready?	2017	Simon Meagher	43:38
Normal early embryonic development: singletons and twins	2014	Shyamaly Sur	19:56

Performing 1st trimester fetal echo	2010	Julene Carvalho	31:33
Rendering/"surface" views: 1. Early embryo; 2. Face; 3. Skeleton	2015	Katia Bilardo	45:01
Role of first trimester cardiac markers in the era of NIPT	2017	Jon Hyett	24:37
Termination of pregnancy – procedures and essential diagnostic investigations	2015	Diana Wellesley	22:27
Why we have to be careful about dating pregnancies – further thoughts on the ovulation-implantation interval	2014	Christoph Lees	43:41
Module 18: 11 to 14 weeks: Abnormal sonographic morphology			
A practical guide to the first trimester diagnosis of fetal brain malformation	2017	Simon Meagher	41:11
Anomalies of the fetal gastrointestinal tract 11 - 14 weeks: benefits and limitations	2017	Simon Meagher	25:34
Cardiac anomalies associated with increased NT	2010	Lindsey Allan	25:16
First trimester diagnosis of fetal cardiac malformation: are we ready?	2017	Simon Meagher	43:38
Module 19: Multiple pregnancy in the first trimester			
Cardiac complications of TTTS	2017	Kurt Hecher	33:01
Demonstration of fetal interventions for Twin reversed arterial perfusion sequence	2017	Dick Oepkes	17:45
Demonstration of Laser photocoagulation surgery	2017	Dick Oepkes	19:09
Discordance in twin pregnancy: Benign or ominous sign	2017	Baskaran Thilaganathan	40:18
Fetal abnormalities in multiple pregnancy	2017	Caterina Bilardo	30:28
Monochorionic monoamniotic twin pregnancy	2017	Liesbeth Lewi	31:21
Multiple pregnancy: Case Discussions	2017	Asma Khalil	1:22:44
Normal early embryonic development: singletons and twins	2014	Shyamaly Sur	19:56
Reduction in multiple pregnancies: Counselling and techniques	2017	Asma Khalil	29:42
Screening for aneuploidy	2017	Caterina Bilardo	37:29
Selective fetal growth restriction	2017	Kurt Hecher	40:55

Single intrauterine demise	2017	Asma Khalil	44:47
The role of the first trimester scan in multiple pregnancy	2017	Jon Hyett	19:40
Triplet Pregnancy: differences in management from twins	2017	Liesbeth Lewi	21:12
TTTS in Triplet pregnancies	2017	Yves Ville	18:00
Twin anaemia polycythaemia sequence	2017	Dick Oepkes	37:00
Twin pregnancy: ISUOG Clinical Standards	2017	Asma Khalil	14:15
Twin reversed arterial perfusion sequence	2017	Liesbeth Lewi`	28:46
Twin-to-twin transfusion syndrome	2017	Yves Ville	54:52
Module 20: Basic concepts relating to fetal anomaly screening			
Antenatal and neonatal screening – what is on offer?	2015	Andrew Rostron	45:06
Introduction: congenital anomalies facts and figures	2015	Diana Wellesley	17:32
Noonan syndrome	2014	Caterina Bilardo	30:24
Screening for major pregnancy syndromes: GDM, FGR and preterm delivery	2017	Jon Hyett	32:53
Ultrasound screening for congenital anomalies	2015	Baskaran Thilaganathan	47:05
Module 21: Fetal biometry and other measurements			
Prevention of pre-eclampsia - update	2017	Daniel Rolnik	37:41
Screening for major pregnancy syndromes: GDM, FGR and preterm delivery	2017	Jon Hyett	32:53
Module 22: Normal second trimester ultrasound morphology excluding the heart			
Fetal neurosonography. Reading the “small letters”	2014	Gianluigi Pilu	38:16
Normal early embryonic development: singletons and twins	2014	Shyamaly Sur	19:56
Rendering/”surface” views: 1. Early embryo; 2. Face; 3. Skeleton	2015	Caterina Bilardo	45:01
Ultrasound screening for congenital anomalies	2015	Baskaran Thilaganathan	47:05
Module 23: Normal second trimester ultrasound morphology: The heart			

ISUOG 2013 guidelines for examining the fetal heart	2013	Julene Carvalho	26:50
New signs: aberrant right subclavian artery	2013	Rabih Chaoui	20:38
New signs: area behind the heart	2013	Rabih Chaoui	20:06
New signs: Left brachiocephalic vein	2013	Rabih Chaoui	13:55
Performing 1st trimester fetal echo	2010	Julene Carvalho	31:33
Spectrum of atrioventricular septal defect in the fetus	2013	Julene Carvalho	30:15
Systematic approach to dextrocardia	2013	Dario Paladini	32:39
Module 24: Brain and CNS: Abnormal sonographic morphology			
Agenesis of the corpus callosum, agenesis of the septum pellucidum and holoprosencephaly	2010	Boris Tutschek	42:49
Anomalies of the posterior fossa	2010	Gianluigi Pilu	54:08
Destructive cerebral lesions	2010	Gianluigi Pilu	36:00
Fetal brain tumors & cysts	2014	Dario Paladini	28:26
Fetal neurosonography. Reading the "small letters"	2014	Gianluigi Pilu	38:16
Fetal Ventriculomegaly	2010	Aris Papageorghiou	35:38
Investigation and management of intracranial insults	2014	Tally Lerman-Sagie	33:15
Mild ventriculomegaly. A true problem?	2014	Tally Lerman-Sagie	33:00
Neural tube defects	2010	Boris Tutschek	35:39
Skeletal Dysplasia scan interpretation of prenatally diagnosed intracranial abnormalities	2015	Sahar Mansour	40:46
Ultrasound & MRI. Do we really need T2 weighted images in this patient?	2014	Gianluigi Pilu	40:52
What is wrong with this Cavum Septi Pellucidi?	2014	Gianluigi Pilu	35:32
Module 25: Face, neck and thorax: Abnormal sonographic morphology			
CDH: from diagnosis to sonographic prognostic factors	2014	Dario Paladini	22:41
Rendering "surface" views: 1. Early embryo 2. Face 3. Skeleton	2015	Caterina Bilardo	45:01

Module 26: Heart: Abnormal sonographic morphology			
Antenatal detection of cardiac abnormalities – diagnosis management and prognosis	2015	John Simpson	45:17
Aortic coarctation	2010	Dario Paladini	17:55
Cardiac anomalies associated with increased NT	2010	Lindsey Allan	25:16
Neonatal therapy and outcome in left ventricular outflow tract obstruction (HLHS, coarctation)	2013	Felix Berger	29:25
New signs: aberrant right subclavian artery	2013	Rabih Chaoui	20:06
New signs: area behind the heart	2013	Rabih Chaoui	20:38
New signs: Left brachiocephalic vein	2013	Rabih Chaoui	13:55
Spectrum of atrioventricular septal defect in the fetus	2013	Julene Carvalho	
Systematic approach to dextrocardia	2013	Dario Paladini	32:39
Ventricle disproportions in the fetus: differential diagnosis	2013	Dario Paladini	29:30
Module 27: Abdomen: Abnormal sonographic morphology			
Abdominal wall and other unusual sites	2016	Stefano Guerriero	13:44
Fetal genital anomalies: aetiology, investigations	2014	Lyn Chitty	17:49
Investigation of fetal hydrops	2015	Tessa Homfray	47:55
Is fetal MRI indicated in renal congenital anomalies?	2014	Daniela Prayer	20:36
MRI of the fetal abdomen	2014	Daniela Prayer	21:57
Renal malformations	2015	Mina Savvidou	38:01
Urinary tract enlargement	2010	Aris Papageorghiou	40:59
Module 28: Skeletal: Abnormal sonographic morphology			
Hand Malformations and syndromes	2014	Dario Paladini	22:05
Rendering/"surface" views: 1. Early embryo; 2. Face; 3. Skeleton	2015	Caterina Bilardo	45:01

Skeletal Dysplasia scan interpretation of prenatally diagnosed intracranial abnormalities	2015	Sahar Mansour	40:46
The sonographic approach to the diagnosis of skeletal dysplasia	2014	Lyn Chitty	39:56
Module 29: Fetal wellbeing assessment: Biometry			
Automatic quantitative MRI texture analysis in small-for-gestational-age fetuses. Discriminates abnormal neonatal neurobehavior.	2014	Magdalena Sanz-Cortes	29:36
Investigating the abnormally grown fetus	2015	Tessa Homfray	51:00
Module 30: Fetal wellbeing assessment: Doppler studies			
Cardiac complications of TTTS	2017	Kurt Hecher	33:01
Demonstration of Laser photocoagulation surgery	2017	Dick Oepkes	19:09
Discordance in twin pregnancy: Benign or ominous sign	2017	Baskaran Thilaganathan	40:18
Fetal abnormalities in multiple pregnancy	2017	Caterina Bilardo	30:28
Fetal intervention of Twin reversed arterial perfusion sequence	2017	Dick Oepkes	17:45
Monochorionic monoamniotic twin pregnancy	2017	Liesbeth Lewi	31:21
Multiple pregnancy: Case Discussions	2017	Asma Khalil	1:22:44
Reduction in multiple pregnancies - Counselling and techniques	2017	Asma Khalil	29:42
Screening for aneuploidy	2017	Caterina Bilardo	37:29
Selective fetal growth restriction	2017	Kurt Hecher	40:55
Single intrauterine demise	2017	Asma Khalil	44:47
Triplet pregnancy: differences in management from twins	2017	Liesbeth Lewi	21:12
TTTS in Triplet pregnancies	2017	Yves Ville	18:00
Twin anaemia polycythaemia sequence	2017	Dick Oepkes	37:00
Twin pregnancy: ISUOG clinical standards	2017	Asma Khalil	14:15
Twin reversed arterial perfusion sequence	2017	Liesbeth Lewi	28:46

Twin-to-twin transfusion syndrome	2017	Yves Ville	54:52
Module 31: Amniotic fluid			
Module 32: The placenta			
Module 32: The placenta			
Module 33: Multiple pregnancy in the second and third trimesters			
Cardiac complications of TTTS	2017	Kurt Hecher	33:01
Case Discussions	2017	Asma Khalil	1:22:44
Demonstration of Laser photocoagulation surgery	2017	Dick Oepkes	19:09
Discordance in twin pregnancy: Benign or ominous sign	2017	Baskaran Thilaganathan	40:18
Fetal abnormalities in multiple pregnancy	2017	Caterina Bilardo	30:28
Fetal intervention of Twin reversed arterial perfusion sequence	2017	Dick Oepkes	17:45
Monochorionic monoamniotic twin pregnancy	2017	Liesbeth Lewi	31:21
Reduction in multiple pregnancies - Counselling and techniques	2017	Asma Khalil	29:42
Screening for aneuploidy	2017	Caterina Bilardo	37:29
Selective fetal growth restriction	2017	Kurt Hecher	40:55
Single intrauterine demise	2017	Asma Khalil	44:47
Triplet pregnancy: differences in management from twins	2017	Liesbeth Lewi	21:12
TTTS in Triplet pregnancies	2017	Yves Ville	18:00
Twin anaemia polycythaemia sequence	2017	Dick Oepkes	37:00
Twin pregnancy: ISUOG clinical standards	2017	Asma Khalil	14:15
Twin reversed arterial perfusion sequence	2017	Liesbeth Lewi	28:46
Twin-to-twin transfusion syndrome	2017	Yves Ville	54:52
Module 34: Pre-term birth and cervical assessment			
Module 35: Ultrasound in the labour ward			

Pelvic floor trauma: the hidden cost of childbirth	2015	Hans Peter Dietz	47:00
