

# 28<sup>th</sup> World Congress on Ultrasound in Obstetrics and Gynecology

20 – 24 October 2018, Singapore

Incorporating ASUM 2018

## Sunday 21 October 2018

### Plenary 1: Keynote lectures

08:30	Welcome from the ISUOG President	
08:35	What is the evidence about evidence based medicine	
09:00	Are women wiser: women's health at the global level	
09:25	Highlights of my time as Editor in Chief	
09:45 - 10:25	<b>ISUOG Achievements 2017 incorporating the Annual General Meeting</b>	
<b>11:00 - 12:15</b>	<b>Plenary 2: Award lectures and Top Abstracts</b>	
11:00	Stuart Campbell lecture: How should we assess the risk of pre-eclampsia	
11:25	Cervical pessary vs vaginal progesterone for the prevention of preterm birth in women with twins and a cervix	OC01.01
11:32	<i>Discussion</i>	
11:35	Balancing risks of surgery with risks of conservative management of benign adnexal masses: results from the postmenopausal follow-up arm of IOTA5	OC01.02
11:42	Discussion	
11:45	Added value of fetal growth velocity and Dopplers to biometry in identifying small for gestational age fetuses with adverse perinatal outcome at term	OC01.03

**This is the preliminary program and is subject to change**

# 28<sup>th</sup> World Congress on Ultrasound in Obstetrics and Gynecology

20 – 24 October 2018, Singapore

Incorporating ASUM 2018

11:52	Discussion	
11:55	A multi-centre trial on the performance of a two-step triage protocol based on initial serum progesterone and serial hCG used to manage pregnancies of unknown location (PUL)	OC01.04
12:02	Discussion	
12:05	Follow-up of children prenatally diagnosed with isolated mild ventriculomegaly	OC01.05
12:12	Discussion	
<b>13:45 - 15:15</b>	<b>WS: NIPT: what technique can do and what clinicians should prescribe</b>	
13:45	What can we see with NIPT	
14:05	What are the limitations of NIPT	
14:25	NIPT vs combined screening: the current state of play	
14:45	Risk of miscarriage <i>L. Salomon (France)</i>	
15:05	<i>Panel discussion</i>	
	<b>WS: Ultrasound in preventing the great obstetric problems</b>	
13:45	Pre-eclampsia	
14:05	Preterm birth	
14:25	Stillbirth	
14:45	Maternal mortality: how could ultrasound help?	
15:05	<i>Discussion</i>	

**This is the preliminary program and is subject to change**

## 28<sup>th</sup> World Congress on Ultrasound in Obstetrics and Gynecology

20 – 24 October 2018, Singapore

Incorporating ASUM 2018

### **WS: Managing ovarian masses: how to classify masses using IOTA terminology, rules and models - lessons from the IOTA study**

- 13:45 How to describe an adnexal mass: IOTA terms and definitions
- 14:05 What are IOTA easy descriptors and simple rules: how to use them
- 14:25 The IOTA ADNEX model: what are the variables and what is the test performance?
- 14:45 Case examples using IOTA ADNEX and simple rules
- 15:05 *Panel discussion*
- 15:45 - 17:35 Plenary 3: Awards and plenaries**
- 15:45 Presentation of the Ian Donald Gold Medal
- 15:50 Acceptance of the Ian Donald Gold Medal and Gold Medal Lecture: Title TBC
- 16:15 The psychological consequences of early pregnancy complications
- 16:40 From obstetrics to nuclear disarmament
- 17:05 Ultrasound in a natural disaster, the 2011 Christchurch earthquakes

**This is the preliminary program and is subject to change**
