

28th World Congress on Ultrasound in Obstetrics and Gynecology 20-24 October 2018, Singapore

Have you registered yet for [ISUOG2018](#), the leading annual scientific event in the field? For the first time at an ISUOG World Congress, selected sessions will be available in Mandarin as part of our [simultaneous interpretation](#) on Monday 22 October. You can find out which sessions will be available in Mandarin [here](#), and visit our [webpage](#) for more details.

Furthermore, ISUOG will be running a [certificate program focusing on the First Trimester](#) at this year's World Congress. This program presents a panel of experts who will take you through the A-Z of fetal malformation diagnosis from 8-11 weeks gestation. This certificate is available to Congress delegates as part of their registration, at no additional charge. [Sign up now](#).

In addition to our phenomenal [scientific program](#), you'll thoroughly enjoy our dynamic [social program](#). This now includes our new [Coffee Connect](#) sessions at the ISUOG Lounge, where you can network with like-minded professionals.

Can't make it to Singapore? With our new live streaming opportunities, you won't miss out. ISUOG Congress Insight will stream [Session Hall 1 on Monday 22 October](#), and we'll also be live streaming our Pre-Congress Course ['From genetics to obstetric management: essential genetics in practice'](#) (brought to you in partnership with [SMFM](#)). For more information, visit our [live streaming webpage](#). Live stream registration is available [here](#). The ISUOG [Basic Training Pre-Congress Course](#) is also available to live stream via [satellites](#).

[Register now](#)

The official ISUOG website is www.isuog.org and registration email address is registration@isuog.org. Please only use the official website and should you receive email communications with regards to ISUOG registration from any other emails, do not reply. We kindly request you to forward those emails to registration@isuog.org, and we will take further actions.

September highlights from the UOG Journal

The [September issue](#) of [Ultrasound in Obstetrics & Gynecology](#) includes a [Physician Alert](#) in which the STRIDER Consortium address the recent suspension of the Dutch sildenafil trial, a [Review](#) of microRNA expression patterns in cardiac remodeling and pre-eclampsia, an [Original Article](#) on longitudinal growth assessment for prediction of adverse perinatal outcome in suspected small-for-gestational-age fetuses, and a [Case Series](#) assessing fetal blood-gas values during fetoscopic myelomeningocele repair performed under carbon dioxide insufflation.

Coming soon: an [ISUOG Guideline](#) on the role of ultrasound in screening for and follow-up of pre-eclampsia.

Last chance to join an ISUOG Committee - we want you to participate

[Apply to join an ISUOG committee](#) to see how you could contribute to furthering ISUOG's [mission and vision](#). Committees provide focus areas for ISUOG activities and are key vehicles for developing and progressing the objectives of the Society. ISUOG is now looking for a [Courses task force chair](#). We are also recruiting members for the [Clinical Standards Committee](#) and [Online Calculator Task Force](#). You need to be an ISUOG member to apply for these positions, so [become a member today](#). There is less than a week left to apply so don't miss this excellent opportunity to further your career and participate in the shaping of ISUOG - please express your interest before **12 September 2018**.

Advanced Fetal Neurosonography: when do I need to refer for fetal MRI?

7-8 December 2018

London, UK and live streamed globally

If you are interested in enhancing your knowledge on fetal neurosonography, [register now](#) for this upcoming [education course](#).

Attend this two-day course in order to develop your knowledge of fetal neurosonographic examinations before and after 20 weeks and learn advanced MRI techniques and their applications in clinical practice. You will be hearing from leading international experts in the field: our Board members Prof. Daniela Prayer (Austria), Dr Gustavo Malinger (Israel) and Mr Aris Papageorgiou (UK), and ISUOG Past President Prof. Gianluigi Pilu (Italy). Check out the [preliminary program](#) now.

You can now [supplement your learning](#) for this education course.

Join us onsite, or via live stream. The recordings will be available to all course delegates for one month after the course for you to re-watch or catch up.

The Basic Training full theoretical program on ultrasound in obstetrics and gynecology

27-30 September 2018

Chennai, India

Join us onsite or via live stream for this four day course inaugurating ISUOG's full [Basic Training](#) theoretical program. You can register now to live stream either [individually](#) or via [satellite](#). You can stream anything from one to all four days of this course:

- Day 1: Principles of ultrasound and the obstetric scan ([view program](#))
- Day 2: The Obstetric scan including Doppler ([view program](#))
- Day 3: Fetal anomalies ([view program](#))
- Day 4: The gynecological scan and early pregnancy ([view program](#))

You can also [register now for onsite attendance](#).

This course is chaired by ISUOG [Basic Training Task Force](#) members Dr Titia Cohen-Overbeek and Dr Suresh Seshadri. More information about the course is available on our course page.

[More information](#)

Organise an ISUOG Approved course

Are you organising an education course or program? You can [apply for official ISUOG approval](#) for your course: helping you connect with more delegates, and encouraging international liaison in education. If your course fulfills the requirements listed in our [approved course terms and conditions](#), it could receive formal recognition from ISUOG for quality and educational value to ultrasound in obstetrics and gynecology. The course can take place in any language and any location. Any member of ISUOG can apply for official ISUOG approval of their course, so be sure to [join ISUOG online](#) today!

If you'd like to seek official ISUOG approval for your course, please submit your program for approval by emailing info@isuog.org. But first, head over to the [approved courses webpage](#) to read the terms and conditions, view photos from previous courses and find details of upcoming approved courses.
